Brain-E™ DHA is a source of high quality omega-3 fish oil that includes 1200 mg of DHA per serving. Omega-3 fatty acids are vital to the health and function of the brain and play critical roles in the structure, fluidity, and permeability of cell membranes.* They are also necessary for healthy intercellular communication (signaling).*

Benefits

- Supports brain, neurologic, and vascular health*
- Plays important roles in the functioning of the brain and eyes*
- Supports healthy brain development and cognition*
- May support healthy neuronal activity in the hippocampus, an area of the brain critical for recent memory*
- Helps support neurons and brain tissue immune response*
- By including the precursor DHA, helps the body endogenously form specialized proresolving mediators (SPMs)*

Features

- Derived from exceptionally high-quality, sustainably sourced fish
- Includes 1200 mg DHA per serving
- Provides vitamin E and includes phosphatidylcholine
- Nice, mild taste with natural essential oils and a touch of sweetness from monk fruit (luo han guo)
- A great alternative for those who may have difficulty swallowing capsules, such as the elderly
- Tested by third-party accredited labs
- Gluten and dairy free, as confirmed by finished-product testing
