

Klondike Lake Opens for 2020 Season

From July 3 to September 7 (Labor Day), Klondike Lake will be open for limited public boating use on weekend days only: Friday, Saturday, Sunday from 9 a.m. to sunset. At this time spots are limited and on a first come, first served basis.

Precautions are being taken to guard against invasive mussels, and therefore all motorized watercraft must be inspected before being launched into Klondike Lake. Due to COVID-19, face coverings and social distancing are required. We will take additional measures during boat inspections to protect boat owners and LADWP employees. Boat access to Klondike is free this summer period and subject to change for future seasons.

Access for motorized watercraft being transported by car, truck and/or trailer will be allowed for a one-hour period between 9 a.m. and 10 a.m. at the gate entrance in order to accommodate inspections. After watercraft have been inspected and granted access, visitors can enjoy the lake for as long as they want that day, while practicing safe social distancing. Please note, recreational users with smaller, non-motorized watercraft that are not transported with a trailer can access the lake at any time.

We appreciate the public's understanding and cooperation during this year's unique summer recreation season. We ask that everyone obey signage and continue to practice State and local guidance to help slow the spread of COVID-19.
