

## AP Computer Science A (Java Advanced Programming) Summer Assignment 2019

1 – Mac users – get/install CodeRunner - <https://coderunnerapp.com/>  
Windows Users – get/install IntelliJ Community Edition -  
<https://www.jetbrains.com/idea/download/> (Make sure it works)

2 – Copy the following code and make sure it runs

```
/* This is a simple Java program.  
FileName : "HelloWorld.java". */  
  
class HelloWorld{  
    // Your program begins with a call to main().  
    // Prints "Hello, World" to the terminal window.  
  
    public static void main(String args[]){  
        System.out.println("Hello, World");  
    }  
}
```

3 – Go to <https://codingbat.com/java/AP-1> and work through all the problems and submit a screen shot of <https://codingbat.com/java> showing your progress.
