

THE SEMINARIAN

VOLUME XXVI

September 7, 1974

Number 1

LIFT UP YOUR VOICE!

"Good ole LTS" is finally returning to some semblence of what is, for the most of us, the "normal" school year. --Not that it hasn't kept busy this summer, what with D. Min. seminars, the summer CPE program, and so forth!

The September Seminars are under way, heralding the beginning of Academic Year 1974-1975. Among other things, this year is the first of our two-year Sesquicentennial Celebration (yes! LTS claims a proud 150-year history of preparation for the Lord's service!). It is the first year for Dr. Whiting to be with us, as a professor in Christian Education. This is also the first year for many new students, the last for many "old" ones, and somewhere in the middle for many more.

So we begin. And for what purpose? The purposes are as many and as uniquely individual as the people who make up our seminary. And each of us seeks to fulfill his purpose in his own, individual way. Yet, in all our individuality, we each tie in with the one purpose of preparation in the best possible way for our Lord's service, and the subsequent action it demands.

We welcome everyone, the old and the new, to this new year and all its opportunities.

Shalom.

J. Deni Bechard, editor

We are again trying to form a Lancaster Seminary Choir. We had a very successful season last year, and are looking into some new things for the coming year. If you can sing, and would like to sing in the choir, please let either Frank McConnell or me know sometime during the month of September. We would like to get started as early in October as possible.

Michael Iski

N.B. The choir is not just for students.. The choir is for all who like to sing.

A S W NEWS

The ASW (Association for Seminary Women) will have their first meeting on Tuesday, September 10, at 7:30 pm at Mrs. Lyman Farrar's home. Babysitting will be available. Projects for the year ahead will be discussed, and a general "get to know your neighbor" program will take place. We urge all Seminary women, wives of professors, and any other women on campus or off involved with Seminary or community affairs to attend. Refreshments will be provided.

Lynn R. Wetzel, president

SERIAL LINE SYSTEM

A warm welcome to all of the new students on campus. Just a short note about the chapel committee. Each day during the week there will be held a chapel service conducted by someone in the seminary community. On Mondays there is a preaching service. The preaching is usually done by someone associated with the seminary (eg. professors, staff, etc). Please feel free to sign up for as many chapel programs as you like. There is a sign up calander outside the chapel. Please leave Mondays blank as they will be handled by the committee. If there should be any questions please feel free to contact either Dr. Ringer or me at any time. Official chapel begins on Monday, September 30. Come out and be inspired.

Try it you'll like it.

Michael Iski H 2-5

THE ARTS ANYONE?

In the spring semester the seminary community immerses itself in the Arts for two days. Last year we had everything from donut making to pottery to children's drama. This year we are thinking of sponsoring a jazz group and a dramatic group plus lots of room for the visual arts, media worship, etc. We will meet in the next few weeks to brainstorm. If you're interested contact Alice Zimmerman. N-101.

WANTED

Contributions of time, talents, ideas to
The Seminarian.

Beginning in October we will publish the paper weekly. If you have an idea you wish to present to the Sem. comm, some "extra time" (ha) to put to some good use, or know how to run a Gestetner machine, we welcome you! A paper is only as good as the people make - so help us make The Seminarian a great one!!!

P.S. No experience necessary!

"I'm sure I'd be irresistible to him if I could ever find a perfume that smelled like new tires!"
