## FOREWORD

This Register/Directory of Lancaster Theological Seminary is the third of its kind. Older alumni (and a few alumnae) know of the "Centennial Register" which covered the years 1825-1932, and the "Supplement to the Centennial Register" which brought the record up to 1952. The present publication continues the chronicle of Seminary graduates up to the Class of 1988. Listed here are the names of all Lancaster Seminary graduates who were still alive at the time of the 1952 Register and all who have been graduated or received advanced degrees since that time.

Those familiar with the two previous Registers will note two significant changes: (1) Only those who completed their studies and received a degree (or Certificate of Graduation) are included in this book. The earlier Registers listed the name of every person who was enrolled, whether he/she was graduated or not. (2) Also, in the former Registers each name was printed according to the year in which the person entered the Seminary. In this book each name appears under the year in which that person was graduated.

This record takes up where the 1952 edition stopped. Previously published biographical/educational data and records of pastorates are not repeated.

For each graduate the entry lists the degree granted, undergraduate degree and college, other degrees (including honorary degrees), the ordaining body and year of ordination, a record of pastorates/other work and years served, special honors, publications, date and place of retirement or date of death.

In the 1970's the Seminary offered a program under which alumni/ae holding the BD degree could complete a few additional hours of course work and exchange the BD for a MDiv degree. From 1973 to 1979, 212 graduates exchanged their degrees (indicated by: xMDiv).

The year of licensure and the licensing body are included only if they differ from the date for ordination.

If a graduate has received more than one degree from Lancaster, the biographical, educational and pastoral data are printed with the entry under the earliest degree. MRE, MAR, STM and DMin degree recipients are listed following the BD or MDiv graduates for each year.

Considerable time and effort have gone into gathering and preparing the data for each graduate. In a number of cases it has been impossible to find all the necessary information. Where there are significant omissions the letters "NFI" appear at the end of the entry, indicating that no further information was at hand.

The primary source of information was the questionnaire sent out to all alumni/ae whose addresses were known. About three-quarters of the questionnaires were returned.

The data furnished varied widely from one respondent to another. Some graduates were reluctant to supply the information requested; others gave much more than was asked. Details received on the questionnaires are used as they were supplied to us. Because of the need to conserve space, many individual accomplishments and activities have been omitted. By virtue of their prominent places in the communities where they serve, parish pastors generally take an active part in programs and activities outside of their parish responsibilities. Most of the LTS graduates have in the course of their various ministries received recognition for community service and many have held positions of importance in the denominational jurisdictions within which they served. The information forms have been filed in the alumni/ae office for reference. In the case of U.C.C graduates a copy has also been placed in the church archives located in the Seminary library.

Undoubtedly in the editorial process some significant things have been overlooked, while just as surely some less than earthshaking achievements may have been noted. Please accept my apologies for any wrong choices. Also, it is virtually impossible to produce this kind of work without errors. Readers are requested to notify the Seminary of mistakes, so that corrections can be made.

Lastly, I want to recognize and thank those whose assistance and collaboration have made this book as accurate and complete as it is: Dick Glatfelter and Lee Schleicher in the LTS Office of Development and Seminary Relations; Florence Bricker, Frank Daugherty and the staff of the U.C.C. Archives; Registrar Nancy Norris and her office; the staffs of the Archives of the United Methodist Church and the Presbyterian Church; Conference Ministers and Executive Secretaries of a dozen U.C.C. Conferences.

Most of all, thanks to my wife Mary for her unstinting support, as well as a few hundred hours of research. Without her help this book would never have come to publication. Gratefully I dedicate it to her.

## NOTES

Abbreviations of the various conferences of the United Church of Christ are those used in the U.C.C. Yearbook (q.v.).

Abbreviations of states are those used by the U.S. Postal Service.

Unless another denomination is specified, pastorates were served in:  
the Reformed Church in the U.S., until 1940;  
the Evangelical and Reformed Church, 1940-1958;  
the United Church of Christ, 1958-1988.

Lancaster Theological Seminary conferred no degree before 1914. From 1914 through 1969 the Bachelor of Divinity (BD) degree was conferred on graduates holding a college bachelor's degree. Those without a college degree received the Certificate of Graduation. (This continues as the current practice.)

Beginning in 1970, the BD was replaced by the Master of Divinity (MDiv) degree. Alumni/ae holding the BD degree were subsequently (1973-1979) able to exchange the BD for a MDiv, by completing a nominal course of study.

Other degrees were conferred, beginning in the years noted:  
Master of Religious Education (MRE), 1953;  
Master of Sacred Theology (MST), 1966;  
Master of Arts in Religion (MAR), 1974;  
Doctor of Ministry (DMin), 1975.

Graduates are listed by year of graduation. Under each year the names of those receiving the BD, MDiv or Certificate are listed first, alphabetically. Below them are the names of those receiving other degrees: MRE, MAR, STM, DMin.

The information included is for the years ending with December 31, 1988, with the exception of a few death dates added since that time.
