

## HOUSE FLOOR AMENDMENT

Second Reading

BY REPRESENTATIVE DeGraaf

1 Amend printed bill, page 2, strike lines 9 through 13.

2 Page 3, strike lines 1 and 2 and substitute:

3       "(b) Carbon dioxide is a trace gas at approximately four parts in  
4 ten thousand (0.04%) of the dry atmosphere. Water vapor is  
5 approximately fifty times more abundant (5000%). Approximately one  
6 percent of the atmospheric carbon dioxide is anthropogenic, with only  
7 fifteen percent of the atmospheric carbon dioxide attributable to the  
8 United States, although that percentage is decreasing as the United States  
9 displaces its manufacturing to developing nations using nonclean coal.  
10       (c) Reducing greenhouse gas emissions will have a negligible  
11 effect on climate change because less than four percent of atmospheric  
12 energy is attributable to carbon dioxide, and, of that, only fifteen percent  
13 of one percent (0.15%) is attributable to total production in the United  
14 States;"
