In this episode, we speak with Dr. Dan Pauly, an award-winning marine biologist at the University of British Columbia. Dr. Pauly speaks with us about his new book, *Vanishing Fish: Shifting Baselines and the Future of Global Fisheries*, which explores the world’s reserves of fish, commercial fisheries, and the various crises they face.

**PLEASE NOTE:** Miamih 1/30-428 are low-quality audio (but don't worry, it gets better).
