

Collage Activity

Do you have an image in your head of how Lafayette should look in 20 years? What kinds of buildings will the community have? What kinds of activities and gathering places? What kinds of shops, homes, and community destinations?

This is your chance to create a “collage” of images to depict your Vision of what you see, or would like to see, in Lafayette in the future!

Things to consider in your Vision for Lafayette:

- *Neighborhoods and the types of housing you would like to see*
- *Elements of “community character” you would like to see (including images that reflect the “look” and “feel” of buildings and public spaces)*
- *Environmental features to conserve or protect*
- *Types of employment or job centers you would like to emphasize*
- *Your preferences for how people will move around Lafayette in the future (mobility and transportation)*

You can include images of things you don’t like by putting a “No” or “Not” symbol or marking over them

Instructions:

- *Cut out images and words (from printouts and magazines on the table) you would like to use*
- *Use glue or glue sticks to seal the words and images*
- *Write your name and key themes / notes on the back of your collage.*
- *Please do not place a picture or note on top of an item that someone else has placed on a collage.*

Have fun and ask any Legacy Lafayette team member for help!!
