Pontoon Series Warranty

Legend pontoon boats are backed by a lifetime warranty on the pontoon tubes, deck, and transom so you will be assured of hassle-free boating for years to come. Plus, our exciting 6 Year WOWranty extends coverage on all your other key components.

See page 60 for details.

Lifetime + 6 Year

Tube, Deck and
Transom Warranty

WOWranty

Splash Series Construction

Wave-Slicing Wide Nose Cones

The wide nose cones deflect spray keeping you dry on the water, while the lifting fins provide the ultimate performance for a smooth ride every time.

Robust Construction

Although they are built to be light and efficient, with exceptional detail to all welds, extruded M-brackets and extensive structure, all Splash pontoons are big in their quality and built to last. (17 Splash Cottage is equipped with .080 gauge tubes)

Triple-Protected Tube Design

Our pontoons are divided into three separate compartments and sealed, making them air tight even in the event of a puncture. If the air can't get out, water can't get in.

EZ-Drain Tubes

Each section of the tubes are connected to one another by a small channel that allows any condensation to drain completely to the back of the tube and out of our Sure-Lock threaded drain plug.

Full Welded Deck Supports

The extruded M-brackets are fully welded and footed to create unparalleled support for the pontoon tube on each Splash series.

Stainless Steel Fasteners

Stainless steel fasteners are used to attach the decking to the substructure. These provide a far stronger hold than pop rivets for years of problem free boating.

Thick Lifetime Decking

A thicker floor means a stronger boat. With 7 layers, each individually treated, we can offer a Lifetime Warranty against rotting. Each seam is sealed with LockOut sealing adhesive and is lined up over a cross member for exceptional dryness.

Dura-lite Composite Furniture Frames

Lightweight, durable, anti-rot composite panels are used to construct all furniture. These panels offer incredible strength while keeping the entire boat lightweight and more efficient.

Quiet and Raised Fences

All fence panels are installed with anti-vibration foam to keep them quiet. They are installed with 3/8" risers to provide water runoff and exceptional ventilation.
