

Intrinio Partners with Cryptoquote to Provide Real-Time Cryptocurrency Data

*Includes over 300 exchange listed cryptocurrency pair price quotes from 14 major exchanges
Accessible via REST API and WebSocket*

St. Petersburg, FL – April 9, 2018 – [Intrinio](#), a fintech company providing affordable and accessible financial data, announced today its partnership with [Cryptoquote](#), a provider of accurate and timely cryptocurrency data APIs, to distribute real-time cryptocurrency data through Intrinio’s fintech marketplace.

“We’re excited about the potential for this partnership and can’t wait to see what our users build,” said Conor Farley, Chief Revenue Officer of Intrinio. “The real-time feed will complement our futures crypto feeds nicely and offer a lot of opportunity for developers building apps and streaming displays, as well as investors looking to get involved in the crypto market.”

Customers can now access over 300 exchange listed cryptocurrency pair price quotes from 14 major exchanges including Bitstamp, Binance, Bitfinex, Cex.io, Poloniex, and Gemini. In addition to real-time level 1 and level 2 data, users can also access historical time series data, including tick, minute, and EOD. Historical access allows users to build charts and back test algorithms to discover arbitrage opportunities. The data is accessible via WebSocket and REST API, which allows users to integrate the feeds into their systems within minutes in a variety of programming languages.

"CryptoQuote.io’s efficient and reliable ticker plant and data APIs will provide Intrinio’s customers with a trusted source of real-time and historical cryptocurrency data," said Mitch Naumann, founder of CryptoQuote.io. “The combination of our data infrastructure with Intrinio’s marketplace format is an optimal partnership for all involved.”

About Intrinio

Intrinio is dedicated to the idea that innovation can only succeed if financial data is easy to work with and priced to move. Co-founded in 2012, by Rachel Carpenter and Joseph French, the team has grown rapidly over the last few years and works tirelessly to deliver high-quality financial data at disruptively low prices. The Intrinio Fintech Marketplace upends tradition, removing financial and technical roadblocks so developers can get to work. Learn more at www.intrinio.com.
