

Materials List & Instructions

Leather Geomtric Earrings

Tools

Scissors
Awl tool
Paintbrush
Needle nose pliers
Wire cutters
Round tip pliers

Materials

Leather (two colors of choice)
Paint– white (if painting leather)
2 jump rings
2 earring hooks
2 head pins

Instructions

1. Gather tools and materials.
2. Cut out pieces of leather according to pattern.
3. Paint small leather piece white, or use white leather.
4. Use an awl to poke a hole at the top of both pieces.
5. Stick head pin through both leather pieces, then bend wire end up.
6. Use needle nose pliers to create a 90 degree angle.
7. Use round tip pliers to create circle.
8. Wrap end of wire around base of circle, then use wire cutters to cut excess.
9. Use a jump ring to attach earring hook.
10. Repeat for second earring.
