

## TOOLS & MATERIALS

Hot Glue Gun

Scissors or Curling Tool

## INSTRUCTIONS

1. Gently punch plant leaves and center circle from paper.
2. Use edge of scissors or curling tool to shape the leaves. Curl the bottom portion slightly and in the opposite direction of the top portion, in an S shape.
3. Starting with the smallest leaves of the larger set, glue six of each size under the center circle with leaves curling up and out. Add second set of six, staggering between first set of leaves.
4. Under second circle, glue five larger leaves in rotation. Glue final five between leaves of first set.
5. Use hot glue to create ring on base of smaller leaves. Place into center of larger set and secure.
6. (Optional) Repeat steps for mini airplant, rotating three colors of paper in each plant.
