

Safety Data Sheet

PRODUCT NAME**Ultrasol 16-5-16 Premium**

Product Code:

NC.216516_106_03.1_USA

Date of issue:

December 2018

1. PRODUCT AND COMPANY IDENTIFICATION

Product identifier Ultrasol 16-5-16 Premium

Recommended uses:
Fertilizer end-use, preparation of fertilizers mixtures.
Dry fertilizer for mixing with water for foliar and soil applications.

Restrictions on uses:
None

Supplier SQM North America
2727 Paces Ferry Rd, Building Two, Suite 1425
Atlanta, GA 30339

Company Telephone/Fax (770) 916 9400 / (770) 916 9404

Emergency Telephone Number (800) 424 9300 (CHEMTREC)

2. HAZARDS IDENTIFICATION**Classification of the mixture**

Classification of the chemical in accordance with 29CFR §1910.1200

Hazard classes and Hazard categories	Hazard statements
Oxidizing solid, Cat. 3	May intensify fire; oxidizer
Eye irritant, Cat. 2	Causes serious eye irritation

Label elements**Hazard pictograms****Signal word**

WARNING

Hazard StatementsMay intensify fire; oxidizer
Causes serious eye irritation**Precautionary Statements**

Keep away from heat. Keep/Store away from clothing/flammable/reducing/combustible materials.

Take any precaution to avoid mixing with flammable / combustible / reducing materials.

Wear protective gloves / protective clothing / eye protection.

Wash hands thoroughly after handling.

In case of fire: use any suitable mean for extinguishing surrounding fire. Spray water for small fires. For large fires flood with abundant water.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.

Dispose of contents/container according to local/state/federal regulations.

Other hazards

None

3. COMPOSITION/INFORMATION ON INGREDIENTS

This product has to be considered as a mixture/preparation

Substance name	CAS No	EC No	Concentration	Hazard Classification
Potassium nitrate	7757-79-1	231-818-8	25% - 70%	Oxidizing solid, Cat. 3
Ammonium nitrate	6484-52-2	229-347-8	10% - 60%	Oxidizing solid, cat. 3; Eye irrit. cat. 2
Perchlorate (ClO ₄ ⁻)			< 0.01%	
Iodate (IO ₃ ⁻)			< 50 ppm	

Safety Data Sheet

PRODUCT NAME**Ultrasol 16-5-16 Premium**

Product Code:

NC.216516_106_03.1_USA

Date of issue:

December 2018

7. HANDLING AND STORAGE**Precautions for Safe Handling**

Avoid generation of dust. Provide adequate ventilation. Wear personal protective equipment. Wash hands thoroughly after handling. Do not eat, drink or smoke when using this product. Keep away from flammable, combustible, strong acids, strong alkalis and reducing substances.

Conditions for safe storage, including any incompatibilities

Keep/store only in original container. Store in a well-ventilated place. Keep container tightly closed.

Do not store together with: Flammable substance, reducing agents, strong acids, strong alkalis, empty wood pallets.

Perchlorate containing product - Special handling may apply. See www.dtsc.ca.gov/hazardouswaste/perchlorate and Section 15 for more information regarding California State regulations.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION**Exposure Guidelines****Occupational exposure limits**

		Potassium nitrate	Ammonium nitrate
OSHA	PEL	Not Established	Not Established
	STEL/ceiling	Not Established	Not Established
ACGIH (2012 TLVs® and BEIs®)	TWA	Not Established	Not Established
	STEL/ceiling	Not Established	Not Established

Engineering controls

Use exhaust ventilation to keep airborne concentrations below exposure limits.

Personal Protective Equipment

Eye/face protection	Chemical goggles required all the time.
Skin Protection	Nitrile rubber gloves, over 0.11 mm thickness, > 480 min breakthrough time and protective clothes, recommended.
Respiratory Protection	Wear respiratory protection, where airborne concentrations are expected to exceed exposure limits

General Hygiene Considerations

Avoid contact with eyes and skin. Wash handsthoroughly after handling. Do not eat, drink or smoke when using this product.

9. PHYSICAL AND CHEMICAL PROPERTIES**Information on basic physical and chemical properties**

Appearance	Solid, crystalline powder
Colour	Pale blue
Odour	Odourless
Odour Threshold	No applicable
pH value	No data available
Melting point / freezing range	No data available
Boiling temperature / boiling range	Not applicable
Flash point	Not applicable
Vapourisation rate / Evaporation rate	No data available
Flammable solids	Not flammable
Explosion limits (LEL, UEL)	Not applicable
Vapour pressure	No data available
Vapour density	No data available
Relative Density	No data available
Solubility	> 100 g/L at 20°C/68°F (water)

Safety Data Sheet

PRODUCT NAME

Ultrasol 16-5-16 Premium

Product Code:

NC.216516_106_03.1_USA

Date of issue:

December 2018

Partition coefficient n-octanol /water	Not applicable
Auto Ignition temperature (AIT)	Not applicable
Decomposition temperature	No data available
Viscosity	Not applicable
Explosive properties	Not explosive
Oxidising properties	Oxidizer

Other information

None

10. STABILITY AND REACTIVITY

Reactivity

No hazardous reaction when handled and stored according to provisions.

Chemical stability

Stable under normal storage and temperature conditions.

Possibility of hazardous reactions

None identified

Conditions to avoid

Keep away from flammable, combustible, strong acids, strong alkalis, reducing materials, and empty pallets.

Incompatible materials

Flammable, combustible, strong acids, strong alkalis and reducing substances under specific conditions. These incompatible materials shall not include approved packaging materials, pallets, or other dunnage (NFPA 400/2016, Hazardous Materials Code, item 15.3.5.2.1.1).

Hazardous decomposition products

Thermal decomposition products: Nitrous oxides (NO_x), nitrites, phosphorus oxides, ammonia and metallic oxides.

11. TOXICOLOGICAL INFORMATION

The following information mostly refers to the major component of the product.

Likely routes of exposure (inhalation, ingestion, skin and eye contact)

Eye contact, skin contact and inhalation. Exposure by ingestion is not expected to occur through normal industrial or agricultural use.

Symptoms related to the physical, chemical and toxicological characteristics

May be irritant to the respiratory tract. Causes serious eye irritation. May cause redness or irritation to the skin. Ingestion of large amounts may cause gastrointestinal disturbances. May cause delayed lung effects after short term exposure to thermal degradation products.

Information on toxicological effects from short and long term exposure

There is no data for the mixture itself.

Acute toxicity

Acute oral toxicity LD50:
Acute Toxicity Estimate for the mixture > 2000 mg/kg bw (additivity formula)

Acute dermal toxicity LD50:
Acute Toxicity Estimate for the mixture >2000 mg/kg bw (additivity formula)

Acute inhalation toxicity LC50:
Acute Toxicity Estimate for the mixture Does not contain acutely toxic ingredients/impurities.

Assessment / classification: Based on available data for the ingredients of the mixture, the classification criteria are not met.

Safety Data Sheet

PRODUCT NAME

Ultrasol 16-5-16 Premium

Product Code:

NC.216516_106_03.1_USA

Date of issue:

December 2018

Irritant and corrosive effects

Irritation to the skin

Result

Method

Potassium nitrate

non-irritant.

Equivalent/similar to OECD guideline 404

Ammonium nitrate

non-irritant.

Equivalent/similar to OECD guideline 404

Assessment / classification:

Based on available data for the ingredients of the mixture, the classification criteria are not met.

Irritation to eyes

Result

Method

Potassium nitrate

Not-irritating

OECD Guideline 405

Ammonium nitrate

Irritating (cat. 2)

OECD Guideline 405

Assessment / classification:

Based on available data for ingredients of the mixture, this product is classified and labelled as **Eye irritant, Cat. 2.**

Respiratory or skin sensitisation

Skin sensitization

Result

Method

Main ingredients

not sensitizing.

OECD Guideline 429

Ammonium nitrate

not sensitizing.

OECD Guideline 429

Respiratory sensitisation

No information available.

Assessment / classification:

Based on available data for the ingredients of the mixture, the classification criteria are not met.

Genetic effects

The product does not contain ingredients classified as germ cell mutagens.

Main ingredients

Bacterial (Ames Test)

Chromosomal aberrations

Mutation in mammalian cells

negative

negative

negative

Assessment / classification:

Based on available data for the ingredients of the mixture, the classification criteria are not met.

Reproductive toxicity

Adverse effects on sexual function and fertility/developmental toxicity

OECD guideline 422.

Main ingredients

No adverse effects on fertility/development (NOAEL >1500 mg/kg bw).

Assessment / classification:

Based on available data for the ingredients of the mixture, the classification criteria are not met.

Specific target organ toxicity (single exposure)

The product does not contain relevant ingredients classified as Target Organ Toxicant.

Practical experience / human evidence

Main ingredients

No relevant effect have been observed after single exposure to potassium nitrate.

Assessment / classification:

Based on available data for the ingredients of the mixture, the classification criteria are not met.

Specific target organ toxicity (repeated exposure)

The product does not contain relevant ingredients classified as Target Organ Toxicant.

Main ingredients

Organs affected:

Effects

Guideline

None

No effects (NOAEL >1500 mg/kg bw)

OECD 422

Assessment / classification:

Based on available data for the ingredients of the mixture, the classification criteria are not met.

Aspiration hazard

Physicochemical data and toxicological information does not indicate an aspiration hazard.

Assessment / classification:

Based on available data for the ingredients of the mixture, the classification criteria are not met.

Carcinogenicity

International Agency for Research on Cancer (IARC)

No component of this product present at levels $\geq 0.1\%$ is identified as probable, possible or confirmed human carcinogen by IARC.

National Toxicology Program (NTP)

No component of this product present at levels $\geq 0.1\%$ is identified as known or anticipated carcinogen by NTP.

Safety Data Sheet

PRODUCT NAME

Ultrasol 16-5-16 Premium

Product Code:

NC.216516_106_03.1_USA

Date of issue:

December 2018

29 CFR part 1910, subpart Z

No component of this product present at levels $\geq 0.1\%$ is identified as carcinogen or potential carcinogen by OSHA.

California Proposition 65

No component of this product present at levels $\geq 0.1\%$ is identified as carcinogen by California Prop.65.

WHO (2003) Nitrate in drinking water

No association between nitrate exposure in humans and the risk of cancer

Assessment / classification:

Based on available data for the ingredients of the mixture, the classification criteria are not met.

Other Toxicological Information

This product contains trace amounts of naturally-occurring perchlorate and iodate. Like other goitrogenic substances, perchlorate may affect iodine uptake by thyroid under specific conditions.

12. ECOLOGICAL INFORMATION

There is no data for the mixture itself. The following information mostly refers to the major component of the product.

Ecotoxicity

Aquatic Toxicity

Toxicity estimate for the mixture (summation method)

96-h L(E)C50

>100 mg/L

Fish

24-h E(E)C50

>100 mg/L

Daphnia magna (fresh water flea).

72-h E(E)C50

> 100 mg/L

Algae

Assessment / classification

Based on available data for the ingredients of the mixture, the classification criteria are not met.

Persistence and degradability

The product contains mainly inorganic nitrate and phosphate salts. In aqueous solutions, these salts dissociate into their respective ions. Phosphate ions are finally incorporated into the Phosphorus cycle. Under anoxic conditions, denitrification occurs and nitrate is ultimately converted into molecular nitrogen as part of the Nitrogen cycle.

Bioaccumulative potential

Low potential for bioaccumulation based on physicochemical properties of main components.

Mobility in soil

The components of this mixture have a low potential for adsorption. Portion not taken up by plants, can leach to groundwater.

Other adverse effects

Excess nitrate leaching may enrich waters leading to eutrophication.

13. DISPOSAL CONSIDERATIONS

Disposal should be in accordance with applicable federal and state laws.

It is the responsibility of the waste generator to determine the toxicity and physical properties of the material generated to determine the proper waste identification and disposal method in compliance with applicable regulations.

Waste containing nitrates that exhibit the characteristic of ignitability has the EPA Hazardous Waste Number of D001 according to the Resource Conservation and Recovery Act (RCRA) 40 CFR 261.

Perchlorate containing product - Special handling may apply. See www.dtsc.ca.gov/hazardouswaste/perchlorate and Section 15 for more information regarding California State regulations.

Indication of changes

Version 03.1 (October 2019) DNEL removed (Section 8)

Incompatible materials information updated (section 10)

NFPA 704 rule updated, NFPA 400 class included (section 15)

Version 3 (February 2016) Hazard classification has been changed in accordance with the composition (section 2)

Composition of the formula has been changed: boric acid was reduced to less than 0.1%.

Product code (document code) was changed

All section were revised and updated in accordance with the new hazard classification

DNEL and toxicity values were adjusted referring to the mixture (Section 8, 11, 12)

Conditions to avoid and incompatible materials were updated (Section 10)

Regulatory information was updated (Section 15).

Minor editorial changes.

Version 2 (August 2013) All section s were reviewed and modified to comply with 29CFR part 1910 Subpart Z (2012)

Version 1 (January 2010) New document
