WATER-SOLUBLE***Nutritional solutions***
For healthy and efficient plant growth

Ultrasol[®] is a complete range of water-soluble nutritional formulas, designed to offer an integrated solution in fertigation, starting from the plant's need per phenological phase.

Ultrasol[®] formulas include both macro- and micronutrients, are fully water-soluble and free of chloride which contributes to an efficient nutrient absorption.

**Free flowing****100% water-soluble****Tank-mix compatible****Ideal for spoon feeding and foliar programs****Balanced nutrition for immediate and predictable results**

Ultrasol®
WATER-SOLUBLE
Nutritional solutions
For healthy and efficient plant growth

Soluble

Thanks to SQM's unique natural resources and processes, Ultrasol® represents a highly soluble Specialty Plant Nutrition product in fertigation systems. Ultrasol® can also be used in foliar applications when appropriate.

Flowable

SQM uses unique anti-caking products and special handling systems in the production of Ultrasol® to provide an easy to handle, flowable product that pours and mixes easily.

Flexible

A complete Specialty Plant Nutrition program can be achieved for any crop at any growth stage with Ultrasol®'s unique selection of formulas, beginning with Primary nutrients, on to Secondary nutrients, and ending with our Chelated Micronutrient.

Quality

Due to SQM's global presence, we have access to use only the highest quality, technical grade raw materials available throughout the world. Ultrasol® is a complete range of water-soluble Specialty Plant Nutrition products designed to provide the best nutrition for your crop, boosting its yield and optimizing your profitability.
