# Ultrasol<sup>®</sup> PROP<sup>®</sup>

WATER-SOLUBLE

## Nutritional solutions

*For healthy and efficient plant growth*

Ultrasol<sup>®</sup> ProP<sup>®</sup> is a complete range of fully water-soluble nutritional formulas, free of chloride, designed to offer an integrated solution in fertigation, starting from the plant's need per phenological phase.

Ultrasol<sup>®</sup> ProP<sup>®</sup> formulas contain macro and micronutrients, along with ProP<sup>®</sup> to enhance phosphorus availability in the soil, making P more accessible. When combined with N, K, and chelated micronutrients in Ultrasol<sup>®</sup>, it promotes rapid root development.

**Free flowing**

**100% water-soluble**

**Tank-mix compatible**

**Ideal for spoon feeding and foliar programs**

**Balanced nutrition for immediate and predictable results**

For healthy and efficient plant growth

## Soluble

Thanks to SQM's unique natural resources and processes, Ultrason<sup>®</sup> represents a highly soluble Specialty Plant Nutrition product in fertigation systems. Ultrason<sup>®</sup> ProP<sup>®</sup> can also be used in foliar applications when appropriate.

## Flowable

SQM uses unique anti-caking products and special handling systems in the production of Ultrason<sup>®</sup> ProP<sup>®</sup> to provide an easy to handle, flowable product that pours and mixes easily.

## Flexible

A complete Specialty Plant Nutrition program can be achieved for any crop at any growth stage with Ultrason<sup>®</sup> ProP<sup>®</sup>'s unique selection of formulas, beginning with Primary nutrients, on to Secondary nutrients, and ending with our Chelated Micronutrient.

## Quality

Due to SQM's global presence, we have access to use only the highest quality, technical grade raw materials available throughout the world. Ultrason<sup>®</sup> ProP<sup>®</sup> is a complete range of water-soluble Specialty Plant Nutrition products designed to provide the best nutrition for your crop, boosting its yield and optimizing your profitability.
