# 5 SECRETS OF SUCCESSFUL LIFE EDITORS

**Welcome, Life Editor!**

**Thank you for attending the free webinar 5 Secrets of Successful Life Editors.**

**I'll bet you've taken training courses in the past where you think you'll implement all the good stuff you're learning, but instead, your notes (if you took any) get filed away in a drawer or gather dust on a shelf.**

**Let's make this webinar different.**

**Print out this workbook and write your notes and next action steps by hand. You're more likely to remember what you write down in your own handwriting...even if it's messy!**

**Next, turn off your devices, close any open tabs besides the webinar, and really LISTEN. Your life is worth the extra time and attention.**

**Finally, circle, highlight, or put a star next to any tasks you want to focus on next, and add those tasks to specific days in your calendar or planner. Don't assume you'll remember or that you'll come back to your notes later! Do it now while the thoughts are fresh in your mind.**

**If you have any questions or concerns after the webinar, please send an email to [sage@sagegrayson.com](mailto:sage@sagegrayson.com).**

**Let's edit your life!**
