VANTEX RESOURCES LTD

## Galloway Project

### The Company

Vantex Resources Ltd is an aggressive exploration company focused on gold mine discovery in Quebec. The company's primary property, the Galloway Project is a large land holding consisting of 104 claims, 3 mining concessions and covers over 6360 acres in one of Canada richest gold mining areas. The property is located in the Abitibi greenstone belt 30 Kilometers west is Rouyn Noranda mining camp; a mine that produced 18.5 million oz of gold and 10 Kilometers east of Kerr Addison; a mine that produced 10 million oz of gold.

## Respected Team

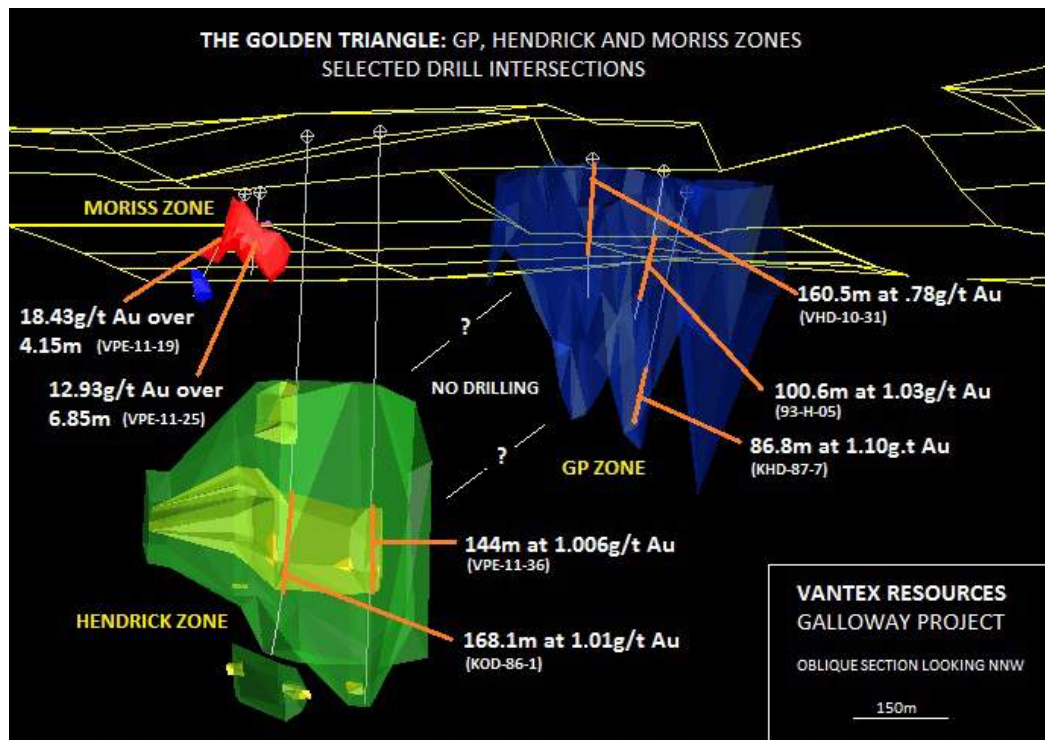

**Guy Morissette**, CEO 30 years Experience

**Denis Tremblay** CFO 20 years Experience

**Fred Archibald** P.Geo 36 years Experience

**Daniel Kelly** P. Eng. 15 years Experience

The company is focusing on its 3 main gold showings. The Galloway/Pitchviewn (GP), Hendrick and Moriss showings, which are located on the Hurd and Perron claim blocks. These 3 gold showings, referred to as the golden triangle, are in close geographic proximity to each other (fig 1) and as group have potential to be linked together to form a significant gold resource.

WARNING: This image was produced for interpretive purposes only and is not intended to represent a 43-101 compliant resource. Intersection lengths are as measured down the hole.
