

MERRY TAJ

IMPERIAL INDIA PALE ALE, 8.5%

With an already established Holiday beer like Gift of the Magi, The Lost Abbey wanted to give its brewers [who already make exceptional hoppy beers] a chance to do something with this year's new hops. Merry Taj IPA was able to take advantage of some of the freshest hops available, harvested in September, and will feature five different varieties [Chinook, Centennial, Amarillo, Cascade, Simcoe] used throughout the brewing process.

Merry Taj IPA begins with an aroma of crisp floral notes of citrus rind and tropical fruit. Initial flavors of clean sweet caramel malt will give way to a spicy bitterness on the finish thanks to the addition of the Simcoe hops. Merry Taj IPA will not be bottled, only kegged, to get the beer out to consumers as quickly as possible
