

## O2 Drops Testimonials

"I have taken vitamin supplements all my life, and have never felt the type of energy, pain relief and reduced joint inflammation from any other product. I have more energy, sleep great, and feel less stress in my joints. I know this is empirical knowledge and not scientific proof. But with all the research and testimonials I've read, I would highly recommend this to everyone." – **Edwin Cabrera**

"All I can say is, I'm impressed. Gave me energy and mental clarity to complete what I needed to work on!" – **John Soriano**

"I am usually under a lot of stress at work, and it usually causes my shoulders and back to get tense and hurt. Last week I had a lot of pain and decided to see if the drops would help. I checked the clock, took 15 drops and continued working. I had forgotten about it until I noticed I no longer had the pain! I checked the clock and exactly 30 minutes had passed. I am AMAZED!" – **Jessica Maldonado**

"I have a 7-year-old and an almost 5-year-old, and typically I'm stressed out when they act up, but yesterday I was calm and did not get all stressed, and in turn, they were calm as well. My lower back feels better, and overall I had more energy. I do not feel the need to drink 10 cups of coffee before noon anymore! Thank you O2!!! I'm also sleeping much better, and when I wake up, I'm ready to get going...I am following the instructions on the bottle, and I feel awesome. Yesterday my co-worker even asked me if I'd lost some weight. I do feel like my cravings for bad food have gone away...Love O2, and do not see myself stopping EVER!" – **Bradley McCoy**

"Love using O2 Drops... It gives me more energy, especially when I feel tired." – **Jacques Allrich**

"I have always been active in sports, bowling 2 leagues a week, playing softball with my daughter 3 times a week, fishing, hunting. Now that I'm getting older, I can't do the things I used to do. With a number of health issues, it's been impossible. I have arthritis, neuropathy in feet, bulging discs in lower back. I was hoping these O2 Drops would give me some relief. I have to admit, I was skeptical at first. I mean, what could 10 little drops of O2 do for me? I am AMAZED! I took 8 drops before going to sleep, woke up this morning, and just realized for the first time in years, I actually slept the night thru! The pain in my feet from the neuropathy is GONE!!" – **Gary Kovachs**

"Over the years, I have used natural supplements, but typically it takes time for natural or herbal products to build up in your system to feel results, NOT with O2 Drops. Within minutes of taking, I could feel it starting to work. It's an energy boost, but at the same time, it has almost a calming effect, and you start to just feel better overall. Like many in their 50's, I typically have lower back pain and stiffness daily. I noticed as I was just now taking the second dose that my back does not have the usual stiffness or soreness." – **Wayne Cook**

“Great stuff! Right away I notice improved mental clarity, energy, sleeping much better, and breathing easier and deeper.” – **Les Jamieson**

“I have a lot of issues brought on me from a dentist with my sinuses, mouth, and throat. Long story! I had bad pressure in my ears, so I said let me put O2 in my ears because I had taken all my products, and it wasn't stopping the pressure... Well, it stopped it quickly. My gums don't hurt anymore, and it's stopped the gum recession and pain. I have also been using O2 as eye drops, and love it! I've tried other oxygen products, but they didn't work!!! This one is working fast! I'm amazed how quickly, plus I stopped all my herbs yesterday, and I've had to take a lot these the past 6 years!” – **Eyvette Laughlin, Naturopathy Doctor**

“As a result of getting more sleep...I am focused, clear, and my cravings have dramatically reduced. This morning, I went walking for an hour with my friends, and at the end of the hour, I felt energized rather than exhausted. When I talk to people about O2, I speak with the confidence of knowing this product will work for everyone. If you love your life and the people in it, you will use the product and share it with everyone you care about.” – **Alice Hawke**

"I feel so blessed that I was introduced to the O2 oxygen product. I was having a rash and swelling in my armpits, and no idea where it came from. All I know is that it was extremely painful, and my armpits had turned red and black. It really looked raw. I could not believe that the pain went away in just 10 minutes, and within a day or two, the rash disappeared. If it had not happened to me, it would be hard to believe how the pain went almost immediately away. I was thinking that the drops were just for the inside of the body, but afterwards I researched it, and it helps so many things, even rashes, cuts, bruises, etc. Thanks O2 for helping me feel so much better." – **Jerri Stewart**

"Since I started taking the O2 Drops five weeks ago, I've seen several improvements. I sleep much better and I'm rested when I get up. I'm also in a better mood and happier. The nagging aches, pains, and stiffness I had learned to live with are almost nonexistent now, including the pain in my knee and the pain from the arthritis in my lower back. Every time I take O2, I feel a calming energy that runs throughout my body and lasts for hours. My stamina is up. My endurance is up, and my energy level feels like it was twenty years ago when I was in my 40's. My recovery period when I do something strenuous has also been reduced significantly. My mental clarity and focus are also much better. The longer I'm on the O2 Drops, the better I'm feeling. I had no idea Oxygen was that important to my body. I thought it was just for breathing and keeping me alive, not for helping me to feel like I was "living" again." – **Keith Francis, Sr.**

"I am a dialysis patient, and on the days I get my treatments, I am so wasted that I can barely function. Since using my O2 Drops, I have been feeling like my old self again." – **MaryAnn Gutierrez**

"I have been suffering from terrible acne on my face for the past 7 months or so, and prescription medicated cream wasn't even helping! Not cystic acne, but a bunch of little bumps all over my face. I put the O2 Drops directly on my face yesterday morning and again last night before going to bed and when I woke up this morning, I was AMAZED to find that a lot of them had disappeared and the others had shrunken in size!! What a relief! I've never had problems with acne, so this was totally new and a bit terrifying for me, really. I'm so happy to see this problem going away!! I LOVE MY O2 DROPS!!!" – **Vanessa Chamberlain**

"I deal with "Metabolic Syndrome" which includes both severe Depression and severe obstructive Apnea. So without my CPAP machine pumping positive air pressure into me at night, I would think normal is

oxygen deprivation. But now I wake up after 6 or 7 hours and feel alive, instead of sleeping double that amount of time and feeling wasted." – **Keith Bender**

"I have had an ear infection. I put a drop in each ear. Today when I woke up my ears felt normal. Also, I have had trouble with nose allergies. I put some drops in my nose at night and in the morning. My nose feels so much better. I put some in my eyes because they were red and itchy. My eyes are clear and feel great today: no itching and no redness. I love my O2 Drops. I added O2 Drops to water in a spray bottle. I spray the solution on my face and neck. It gives a nice glow to my face. I have really put the O2 Drops to the test. I will not be without this product. I feel so much better. My energy level is very strong. I call this product my HappyNowDrops!" – **Colleen Harris**

"Two weeks ago, I started to take O2 Drops, not really expecting to see any dramatic results. I was actually thinking I was good as I was going to get. But now, I notice that a certain drive or mental energy has come back. I feel more positive and eager to do things; plus the level of pain my body had been experiencing is greatly lessened. O2 Drops are so easy to take. It's hard to believe that just taking these drops a few times a day could make dramatic improvements in my well-being in just a short time. They are amazing!" – **Susan Drinkard**

"I have very very dry eyes. I have been using Restasis for about 2 years now. I have been putting one drop of O2 in each eye every morning and every night for about 1 week now. I have not had any dryness at all during the day! I am no longer using the Restasis because the O2 works so much better! My eyes have not felt this good in years." – **Beverly Jericho Moreland**

"24 hours after taking the O2 Drops for the first time, 3 times the day I received it, and also rubbing the drops on the area... To my surprise, during the night while sleeping, I was in disbelief in the fact that I could turn and did not feel pain nor discomfort. I could not believe that a product so simple could have such amazing results in a short time. This is truly a MIRACLE in a bottle. It's attached to my hip, and I will never leave home without it." – **Carol George**

"My son woke up with pink eye. He went to school, and they sent him right back home. I put two O2 Drops in his eye right away, then two more that afternoon and evening, and repeated on Saturday. His pink eye is gone today. I'm amazed with O2 Drops. Thanks." – **Fontae Parchman**

"I've been putting one drop in each eye twice a day. Because of lack of rest, my eyes were irritated and red. The redness and irritation seem to have gone away. Not to mention my quality of sleep has greatly improved, and I'm thinking clearer during the day. Truly I can't think of anyone that wouldn't benefit from this product." – **Jay Jensen**

"I have suffered all my life with the shakes. If I got nervous, it got worse. If I was rushing around, it got worse. It was passed on to me from my father and his mother, etc. Since I got O2, when I find I'm getting shaky, I take my Drops, and it calms it right down in minutes... Awesome!" – **Marjorie Penney**

"The big difference to me is when I go to bed I immediately fall asleep for the first time in my life and I don't wake up 4 or 5 times. I get a good restful night and wake up ready to start my day. This makes everything better." – **Billie Frances Foster Dunham**

"The first time I took the O2 Drops, my neck started to relax, I felt calmer, and my whole body and spirit felt a notable lightness. My constant nagging winter cough stopped. Within a day or two, my shoulders started to relax, and my whole body was more relaxed and flexible, and I experienced an overall feeling of

calm. I was more focused, positive, present and interactive in my interactions at work and people noticed. I felt more energized. I have experienced sleep problems most of my adult life – I now sleep like a baby. I also have less food cravings and mood swings and my energy is more steady and up.” – **Judy Camus**

“When I always stand up, I always have a sharp pain in my hip from hip surgery 9 months ago. The pain will go away after standing for a minute or so, but every time I stand, I always have that uncomfortable pain. (Freak accident while snow skiing.) Well, that sharp pain was not there!! WOW!! I then took the drops again at bedtime, and slept REALLY good last night...sleeping all night without waking up 1 time. I always wake up several times during the night. Can hardly wait to see what other benefits from this AWESOME O2 Product.!!” – **Anita Burrows Rawls**

"My experience with O2 Drops has been one of surprises. I did not know what to expect when I took the first drops, however within minutes I felt stronger and could move around easier. I just couldn't believe anything working that fast. A few days later, I noticed that my varicose veins were less pronounced. I had not done anything different, so I researched stabilized oxygen and varicose veins, and to my surprise, it does reduce varicose veins. I also noticed about the same time that my gums stopped bleeding when I brush my teeth. I researched this also and to my surprise, it strengthens gums. I am now looking for my next surprise anytime soon." – **L. Hodge**

"I wanted to thank you for introducing me to Activated Stabilized Oxygen. I have been taking it for over six years and I would not be without it. I have trouble with bad gums and I keep that problem in tact with the oxygen and I take it when I have a cold, sore throat and to stave off all sorts of health problems. I think it is a wonder drug. I also use it for cuts, scratches and burns, even sunburn. Keep up the good work." – **Beverly Shannon**

"While I was working at a laboratory that does environmental testing of water, I had the misfortune to get an acid burn on my forearm. Someone had accidentally spilled some on the counter and had not cleaned it up... Within minutes, my forearm had a huge red rash and itched terribly. I immediately washed my arm off with soapy water. Nothing happened. Then I applied some of the ASO® directly to the burn. Within minutes there was relief. Talk about amazing results. This was almost unbelievable...By the time I went home, the rash was almost gone. In the morning there was no sign of the burn. There is a bottle in the lab constantly now." – **Doris Furgeson**

"I fly from Vancouver to Korea for business very often and suffer from tiredness and jet lag. I bought the O2 oxygen liquid drops to try and I could not imagine to feel so good after such a long trip. Never have I had such energy and feeling refreshed when I arrived. I will tell my associates to use these and I need to buy more...They are amazing." – **K. Whein**

"I am an asthma sufferer from childhood and also teach yoga part-time. I do not like taking medication unless I absolutely have to. I've been using the bottled oxygen for about 7 months and feel so much better. I have only used my puffer once and you should market this for asthma and bronchitis patients. I can honestly say that your drops have helped me to breathe better and also feel more energetic, even after 3 yoga classes." – **M. Wallace**

## Professional Athletes Testimonials

**For years professional athletes and trainers, including Olympians and World Record Holders, have put the proprietary Activated Stabilized Oxygen in O<sub>2</sub> Drops to the test. If it can work for people who consistently put extreme demands on their bodies, imagine what it can do for you.**

"I have been involved in professional sports for years, both at a professional level and a performance coaching level. ASO® is probably the biggest breakthrough I've seen in those years. Take control...Take AO2." – **Tony Brigstock, PGA Golf Pro**

"Having researched the benefits of oxygen, I tried AO2® and was amazed at the difference it made to my energy, endurance and alertness at training. It's a winner." – **Adam Watt, 4-Time World Kickboxing Champion**

"On behalf of the World Team, I want to personally thank you for your assistance in one of the greatest sporting endeavors ever undertaken. As you probably already know, of the 15 members that participated...11 are going to Sydney! That is an incredible rate of success...you (ASO®) are an important part of that successful team." – **Gary Hall, Sr., M.D., U.S. Olympic Sprint Swimming Team**

"AO2® contributed to me feeling energetic in the water. Glad to have found such a helpful, natural and drug-free product." – **Gabrielle Workman, Triathlon Champion**

"Since using the AO2® I have found a number of benefits from the supplementation. The benefiting factor that I have noticed was increased long lasting energy." – **Brent Livermore, Olympic Hockey**

"Since using Sports AO2® I have been able to take my training to the next level, translating into improved results." – **Chris Winn, Champion Cyclist**

"We first tried Sports AO2® during competition and were amazed by the results. We both agreed that it boosted our performance dramatically, especially towards the end of the program when fatigue really takes its toll. We felt as though we could continue to push ourselves harder throughout the whole routine, without "hitting the wall" at the end. Thank you for making available such a wonderful product." – **Eloise Amberger and Sarah Bombell, Olympic Synchronized Swimmers**

"I have noticed an improved performance at track training since I've been taking AO2®. I was really pushing it and my legs were screaming with the efforts, but I was still able to maintain the cadence and repeat the efforts after a rest period....After taking AO2® for nearly three weeks...I can report that across the board the benefits have been that I can operate at 6-8 beats HR higher, feel much more relaxed, able to sleep better and feel more invigorated. I am not experiencing the energy spikes/mood problems when hard training." – **Jayson Austin, World Cycling Record Holder**

"Mt. Everest has challenged the best-of-the-best...I turned to ASO® as a nutritional source to supplement my oxygen intake and took it multiple times every day. The results were beyond my expectations. I know that this supplement helped to make the difference in achieving my goal to stand at the top of the world." – **Ingólfur Geir Gissurarson, World Class Mountain Climber**
