### Boost Your Health and Vitality!

Thrive is formulated to help restore an optimal balance of cardiovascular health and preventing heart disease.

Based on Nobel Prize winning research, Thrive supplies the body with two vital amino acids, L-Arginine and L-Citrulline, which research shows can prevent and even reverse cardiovascular impairment as well as age-proof the cardiovascular system by naturally boosting the production of the powerful neurotransmitter Nitric Oxide

in the body. One scoop of Thrive provides 5,000 mg of L-Arginine and 1,000 mg of L-Citrulline.

Plus, Thrive is packed with the highest quality of raw and organic greens available anywhere. These unique vitamin- and mineral-rich greens are derived from one of only two inland sea beds on Earth and are grown in lush ancient volcanic soil. From time of harvest, which only takes place twice each year, the fresh plants are juiced within minutes and – through a proprietary process – converted into our powerful green nutrient blend.

**Directions:** Mix 1 stick pack with 4-8 ounces of water. Stir to dissolve. If water is very cold, mixture will take about one minute to dissolve. One scoop may be taken twice per day between meals on an empty stomach. Store in a cool, dry place.
