

# Professional Magician Martin Duffy teaches the Tricks of the Trade in his Fun, Involving, and Awe-Inspiring Magic Workshops

Children who learn magic learn to read and comprehend what they read  
They also learn to get up in front of a class  
They learn to communicate  
Their self-esteem improves - and so do their grades

## Magic encourages young people to develop

Reading & comprehension skills  
Practice skills  
Concentration skills  
Eye/hand/finger coordination  
Digital dexterity and hand/eye coordination from practising  
Sleight-of-hand moves and the handling of objects in specific ways  
Communication/verbal skills  
Creativity & expression skills  
Self-confidence and esteem

Martin has also added Educational themes to his Breakfast Club Shows  
Choose from Environmental, Science, Bullying, Healthy Eating and Maths  
While the children are being entertained, they are also learning. It is an unusual way to learn, but it works!
