

## **School Website Design Checklist**

[www.mararoberts.com.au](http://www.mararoberts.com.au)

- 1. I recommend using Wordpress Software for your site**
- 2. Responsive for computer, tablet and phone use**
- 3. Load each page under four seconds**
- 4. SEO friendly – home page to have a H1 heading**
- 5. Have a email subscription opt-in on the home page**
- 6. Navigation is to be only 2 layers deep – simple and user-friendly**
- 7. Full 'contact us' page with maps, optin form and contact details**
- 8. The template should use the full-width of the screen**
- 9. Have a separate page template for a landing page (full width customisable page), and a template for a page that is full width but includes the header**
- 10. Article section with the ability to post podcasts or videos and a navigation bar to easily view content by author or topic**
