Join us as we celebrate International Women’s History Day by marking the extraordinary impact global women leaders are making in the world on behalf of women and girls everywhere.

Mar 08, 8:00 AM – 9:00 AM PST
Free session. Register here

Equity in the Center:

Intersectional Allyship for Racial Justice: A Workshop for White Allies

What does it mean for white people to be effective allies to people of color in our work for racial equity and collective liberation? Whitney Parnell, executive director and co-founder of Service Never Sleeps (SNS), will lead an intensive, two-day fast-paced webinar series designed to explore how white folks use individual and collective areas of privilege to advance racial justice in an intersectional context. Using SNS’ CLAIM framework (Care, Learn, Act, Influence, Maintain), this workshop will explore what it means to adopt an allyship lifestyle as a white person. Please note that this workshop is only for individuals who identify as white.
This is a webinar training that takes place over 2 days. Session dates are offered January through June. Learn more here.

**National Center for Family Philanthropy**

**Racial Justice Learning and Action Cohort**

*This is an educational opportunity for family foundation trustees interested in advancing racial justice practices, both personally and professionally. The Cohort will equip participants with opportunities for reflection and tools for best practices through modular learning and one-on-one support. This was designed as a space where family foundation board members can build their own knowledge of systemic racism to improve their practices, and ultimately be better stewards of the public trust.*

Applications are due by March 31, 2022. Trustees can apply here.

**Asset Funders Network**

**Building Capacity of CDFIs to Support Entrepreneurs of Color: Session 1**

*Small business is experiencing a vanguard moment in its role to build wealth and close the racial and gender wealth gaps. CDFIs are gaining recognition as a tool to effectively support America’s small businesses and address access to capital and technical assistance for entrepreneurs of color. Many advocates rightly called on the federal government to include specific funding for CDFIs in its second pandemic response package. And, a number of funds as well as policies are poised to increase CDFI investments to address inadequacies and inequities in the small business ecosystem and help Main Street thrive. With increased funding and recognition, however, CDFIs will need to continue to build their capacity to increase ability and agility to address the substantial need for critical services in underserved communities. Asset Funders Network, hosted by Greater New York Asset Funders Network, will hold two programs to examine the practices (March 10th) and federal and local policies (March 29th) that help CDFIs build capacity and support entrepreneurs of color.*

This is a webinar training that takes place over 2 days March 10 and March 29th, 2022. Register here.

**Other**

**Data 2X**

*Learn about why gender data is fundamental to achieving gender equality and the Sustainable Development Goals. Gender data illuminates the path forward and can help ensure that the rights of all communities are upheld, protected and respected.*
