

FBOS = Frederick Board of Supervisors

- Please provide an organizational chart showing the various departments that are under the supervision of the County Administrator and how they relate to each other. Is there a print version of this chart? Is it available online? How do the functions of the FBOS relate to the County departments?
- Please provide a brief overview of your website and how to navigate it, including information on how to access meetings that are livestreamed and /or recorded and how to submit questions or comments to the FBOS and committees prior to the meetings.
- Please give any updates available on the proposed fire station for the Opequon district: We know it was approved to be on the CIP, but what does that mean in terms of funding and timing?
- Please provide any updates on an emergency access road onto 277, which would allow more than one ingress/egress to our community.
- Bond release and private roads: Does the County currently hold a bond on Rachael Carson? If so, how much is it and what are the terms of the bond?
- Bond release for infrastructure: Who do we ask to get accurate information regarding when various Phases of the community have their bonds released? In the event of the Developer not fulfilling his obligations as to roads or infrastructure, can the bonds held be used to complete the work?
- Lake Frederick is part of the Chesapeake Bay Watershed and as such, the County has the authority under state regulations to require that the Developer replace trees that are lost during the homebuilding process. Does the County exercise this authority?
- Please explain the building permit process for homeowners who are making changes to their own property.
- What is the relationship between the County, the Board of Supervisors and Frederick Water?
