

Day 1

Transmission 30:22

Music: [Daniel Schotsborg - Moon - Holosounds](#)

As we begin this energetic journey, it's only appropriate that we start with the base. During this transmission of Light we begin the clearing of the base chakra throughout all time and space, all parallel realities and parallel universes, alternate realities and alternate universes, clearing throughout the bloodline ancestry of our current incarnation, our star lineages and our planetary systems.

Universal law requires that we have the right to clear for ourselves and those to whom we are connected, whether through blood, energy or lineage. During this energy work, we set the intention to clear all that we are capable and contracted to do at this time, to allow for all illusion under which we are still operating to be released.

Stepping out of the illusion of eons of conditioning will set the stage to merge with our own truth and wisdom at a much deeper level.

You may experience deep clearing in the dream state for the next few nights. This is the most effective and efficient way to process deep seated fear, resentment, pain and betrayal. This should pass quickly, as the amount of Light being brought into your cellular structure will facilitate this with as much precision and speed as possible.

I will begin to unweave the templates of Light in your personal matrix which are holding the illusions you are now ready to release. Please be aware that many family members and friends who are intricately connected to these illusions may try to reach out to you and re-establish the fear or illusion. Please hold in your awareness to be in the highest level of service, first and foremost, to yourself (as you are leading the way for all to follow) and those to whom you are connected. Come from a state of compassion and observance, as the master of Light that you are, and recognize the patterns which are resurfacing to clear. Once you do, state firmly your

intention to clear throughout all time and space and establish a new matrix of Light which is based in truth.

It is recommended that you use any and all tools in your tool box to assist with this clearing. You know what works best for you. EFT–tapping, journaling, salt baths, etc., all aid the personality with shifting emotion quickly and effectively. If you are guided to do anything, please follow your guidance impeccably! Rest, good nutrition, and lots of water to help flush your system is always recommended.

Breathe and know that You Are Light!
