

## Day 8

Transmission 30:05

Music: [Daniel Schotsborg - Red - 3D](#)

Working with the Original Architects of the human body, this transmission of Light brings in the new Crystalline Chakra system for the 9 major -and several of the minor - chakras within your being. The introduction is through the Grandmothers of Mu and I recognize their presence and frequency immediately. These pure yet technically- oriented Light Beings transmit a Language of Light that is so familiar, yet one I have not spoken in this lifetime.

The intricacy and detail of the new structures of Light are difficult to articulate. The information I am receiving is that "this is a purification system" for the body. The technical aspects are beyond my ability to comprehend in this reality, yet I remember this "system." We are definitely moving into new territory. As always, set the intention for the Highest Potential for you in this NOW moment.

Let the music move you into a deep level of relaxation. I do not recommend attempting to stay conscious for this one, but always, always, always follow your own inner guidance.

Remember to take care of your body. Please drink plenty of "purified" water. You may want to take liquid silica to assist with the integration. It is important each day to ask how much liquid silica is needed, as it may vary. Use your preferred method (muscle- testing, pendulum, etc.) to obtain this level of precise guidance.

Breathe and know that You Are Light!
