

Roy's Hill Pipfruit Forecast 09 Jun 2022

SITUATION - A NW flow covers the country. Slower in the upper NI freshening as it goes S. A S change is developing to the E and over Tasmania of colder air-mass.

PROGNOSIS - The complex low develops to the SI with a trough extending into the Tasman as a cold S change. FRIDAY then trough moves NE and weakens with a complex low developing to the S of the SI. SATURDAY the trough in the Tasman develops onto the SI and a SW change develops onto the lower SI. A new lobe develops around to the S SE of Tasmania with the flow turning NW over the entire country.
