beautiful art of ex-
tension phone living.
Just a little extra each
month. Call your
AGT Business Office
for details.

AGT part of
Trans-Canada Telephone System

New AGT Services

CUSTOM CALLING SERVICE

Four new features your telephone can provide. All are made possible by the most advanced electronic switching equipment in the country. This optional new service presently operates only in those areas which have this special equipment. Custom Calling Service will be extended throughout Alberta as electronic switching equipment becomes available in other centres.

1 Speed Calling

With Speed Calling, you can reach your most frequently-called numbers by dialing only one or two digits. It's a real time-saving convenience. In business it makes it easier to keep in touch with branch offices, regular customers and suppliers. Easier because you dial just one or two digits rather than the usual seven for local calls or eight or eleven for long distance calls. Two capacities are available: up to 8 or 30 selected numbers. And you can change any of these numbers whenever you like. There's no connection charge for Speed Calling.

2 Call Forwarding

This special service will automatically direct your incoming calls to any other local telephone you wish when you're away from your home or office. Before you go out simply dial a code plus the number where you can be reached. Meanwhile your own phone can continue to be used for outgoing calls. Call Forwarding ensures that your phone will not go unanswered. It lets you talk directly with callers when you're out. Your calls can follow you anywhere in your local calling area. There's no connection charge for Call Forwarding.

3 Three-Way Calling

By adding this service, you can bring a third party into any telephone conversation. The third phone can be any local or dialable long distance number. These three-way conversations can save you time — help you make decisions faster. They will also allow you to organize and make arrangements that might otherwise require several separate calls.

4 Call Waiting

When you're already talking on the phone, an intermittent tone advises you that another caller is waiting. Just depress the switch-hook once to answer the new call while holding the original connection. You can even talk back and forth to both parties. Call Waiting is a real asset when you're expecting a long distance call or other important messages.

For more information dial '0' (Zero) and ask for Business Office. (No toll charge).

VISIT VISTA 33

Enjoy the spectacular Edmonton vista from the 33rd floor of the AGT Tower — plus the unique "Man and Telecommunications" displays. The "please touch" working models fascinate all age groups. Schools and youth groups may arrange free guided tours; phone Edmonton 425-3978 collect or write Vista 33, Box 2411, Edmonton.

BASSANO
