# The Telephone Pioneers

## - Making Tomorrow's History Today

No ordinary stuffed toy, this Snoopy. He "talks"...to children locked in a lonely world of silence, often sparking a response that is the start of a miracle.

Snoopy is one of several projects sponsored by the Telephone Pioneers of America...an organization of telephone employees, active and retired, sharing a dedication to three principles...fellowship, loyalty, service. Fellowship with one another, loyalty to their industry, and voluntary service to the community. Their technical expertise has created many aids for the handicapped.

He and other "talking" toys are invaluable tools for teachers and speech therapists attempting to communicate with autistic and retarded children. There's the beeping ball, horseshoe, liquid level indicator and puck, which allow the blind to participate in activities not previously possible for them.

They have also developed for various Police Departments "talking bicycles" which are used to promote bike safety and maintenance. The bicycle's "voice box" is a synchronized tape recording unit which is attached to the bicycle's frame and ex-

plains road safety to young children. In addition, the recorder activates a series of flashing lights attached to the frame of the bike during bicycle maintenance sessions.

Telephone Pioneers also assist the hearing handicapped, the elderly, and the disadvantaged; and work to improve the environment.

**Telephone  
of  Pioneers  
America**

These are some of the contributions made by the Telephone Pioneers of America. The full story adds a proud chapter to the history of the telephone industry.
