IT'S EASY TO DIAL

FIRST

CONSULT YOUR DIRECTORY

If the number is not listed call Information (Dial 113) for the number and jot it down for reference.

SECOND

LISTEN FOR DIAL TONE — a steady humming tone, indicating that the equipment is ready for your call. If you do not hear the dial tone within a reasonable time, hang up, wait for a few seconds and try again.

THIRD

DIAL THE FIRST TWO LETTERS and the **CORRECT NUMERAL** of the office name, then the four numerals of the number. For example, to dial AMhrst 6-3580 dial A-M-6-3-5-8-0. For each letter or numeral turn the dial all the way around to the finger stop, then release the dial and allow it to return without interference. If your finger slips while dialing or you make an error, hang up, wait a moment, listen for the dial tone and dial again. If the telephone number is composed of numerals only, dial the numerals in their respective order.

FOURTH

AFTER YOU DIAL

1. Listen for Signals: **RINGING**—soft intermitten bur-r-r-r, **BUSY**—buzz-buzz-buzz.
2. Wait at least a minute for called party to answer his telephone.

Effective with the March 1957 issue of the Calgary and District Telephone Directory, the following changes will be made in the numbering scheme of some of the Exchanges in Calgary:

Present 2-xxxx numbers will become AMherst 2-xxxx
 Present 6-xxxx numbers will become AMherst 6-xxxx
 Present 69-xxxx numbers will become AMherst 9-xxxx
 Present 44-xxxx numbers will become CHerry 4-xxxx
 Present 49-xxxx numbers will become CHurchill 9-xxxx
 Present 3-xxxx numbers will become CHestnut 3-xxxx

The numbers in the other Calgary Exchanges will be changed in conjunction with the issue of the 1958 Directory.

NOTE—The following abbreviations will be used in this Directory: AMherst (AMhrst), CHurchill (CHrchl), CHerry (CHery) CHestnut (CHstnt).

How to Dial the New 2-5 Numbers

New 2-5 telephone numbers (2 letters and 5 numerals) become effective with the March 1957 directory. These telephone numbers will consist of:

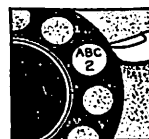

- (a) A prefix—an office name and a numeral—like AMhrst 6
- (b) The subscriber number—four more numerals, like 3580.

To dial the number AMhrst 6-3580, you dial AM6-3580 . . . like this:

Lift the receiver—wait for the steady hum-m-m-m- of the dial tone—then

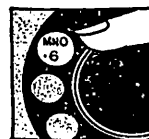

First dial the letter

A . . .

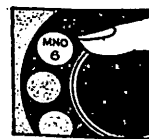

then the letter

M . . .

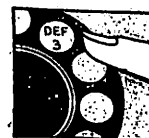

then the numeral

6 . . .

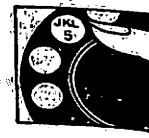

then the numeral

3 . . .

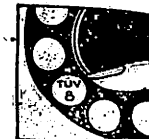

then the numeral

5 . . .

then the numeral

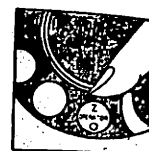

8 . . .

then the numeral

0 . . .

(not the letter O)

It's as easy as that.

If you give this number to the operator, or repeat it to a friend, the easy way to say it is to break it up like this:

"AMherst 6 . . . three-five . . . eight-oh".

This is the best way to say it—to understand it—to remember it.
