WORKING TOGETHER TO RECOVER THE FUTURE

Armed with an ongoing commitment to improve the environment, AGT Directory Limited has successfully established a province-wide directory recycling program. The key to recycling is developing partnerships: with the communities we serve, with other local businesses, with the paper and directory publishing industries and with recyclers. By working together we can make a difference in the environment for our generation and for generations to come.

- REDUCE** Implementing waste reduction measures in the printing process has resulted in maximum efficiency in the use of the newsprint rolls. Through co-operation with our corporate customers, we continually strive to provide the "just right" quantity of directories.
- RECYCLE** Newsprint used in directories contains up to 10% recycled fibre, which is manufactured from outdated directories.
- REUSE** AGT Directory continues to explore new markets for our outdated directories. Most of the directories are shipped to a de-inking facility to be recycled back to newsprint, and the remainder are sent to a local recycler who converts them into building products.
- RECOVER** AGT Directory is entering the third successful year of the directory recovery program. Through corporate and community co-operation the success of the program increases each year.

**AGT's commitment to Quality extends to:
our customers,
our communities,
our environment.**
