The Shortest Distance Between Two Points . . .

NOTHING gets there so quickly as a telephone call. Nothing brings back an answer so fast. Nothing sweeps miles aside, puts two people "face to face" so economically, so easily, as your telephone.

We would like you to feel that we sincerely desire to serve you and that our staff will be glad to give your requests cheerful and courteous attention.

IT'S EASY TO DIAL

FIRST

CONSULT YOUR DIRECTORY

If the number is not listed call Information (Dial 113) for the number and jot it down for reference.

SECOND

LISTEN FOR DIAL TONE—a steady humming tone, indicating that the equipment is ready for your call. If you do not hear the dial tone within a reasonable time, hang up, wait for a few seconds and try again.

THIRD

DIAL THE FIRST TWO LETTERS and the CORRECT NUMERAL of the office name, then the four numerals of the number. For example, to dial FAirfax 9-7103 dial F-A-9-7-1-0-3. For each letter or numeral turn the dial all the way around to the finger stop, then release the dial and allow it to return without interference. If your finger slips while dialing or you make an error, hang up, wait a moment, listen for the dial tone and dial again. If the telephone number is composed of numerals only, dial the numerals in their respective order.

FOURTH

AFTER YOU DIAL

1. LISTEN FOR SIGNALS

Ringing—soft intermittent bur-r-r-.

Busy—buzz-buzz-buzz.

2. WAIT AT LEAST A MINUTE FOR CALLED PARTY TO ANSWER HIS TELEPHONE.

NOTE: FAirfax will be abbreviated in the directory as follows—FAirfx.

HOW TO DIAL

2 Letters- 5 Numbers

2-5 telephone numbers (2 letters and 5 numerals) will consist of—

- (a) A prefix—an office name and a numeral—like FAirfax 9
- (b) The subscriber number—four more numerals, like 7103.

To dial the number FAirfax 9-7103, you dial FA 9-7103 . . . like this:

Lift the receiver—wait for the steady hum-m-m of the dial tone—then

First dial the letter

F . . .

then the letter

A . . .

then the numeral

9 . . .

then the numeral

7 . . .

then the numeral

1 . . .

(not the letter I)

then the numeral

0 . . .

(not the letter O)

then the numeral

3 . . .

It's as easy as that.

If you give this number to the operator, or repeat it to a friend, the easy way to say it is to break it up like this:

"FAirfax nine . . . seven-one . . . oh-three". This is the best way to say it—to understand it—to remember it.

How to Transact Business WITH THE DEPARTMENT OF TELEPHONES

Applications for New Service — Changes in Location — Termination of Service

All matters relating to new telephone service, removals, termination of service, directory listings, adjustment of accounts, collection of bills, etc., are handled at the Business Offices of the Department.

Changes in Directory Listings

This telephone directory is issued every twelve months. Notification as to new listings, changes or corrections should be made to the Local Office at once.

Directory Advertising

For information as to space or rates for Directory advertising, please communicate with your local office.

Service Difficulties

Below are shown the telephone numbers to be called to report service difficulties. If at any time difficulties are not promptly corrected, call the Manager of your Central Office.

INFORMATION—

For information regarding New Subscribers, Change of Telephone Numbers, etc. Call "Information" Dial 113

REPAIR SERVICE

To report Telephone Out of Order Call "Repair Service" Dial 114

LONG DISTANCE—

To call Long Distance or for information regarding Long Distance Rates Dial "0" (Operator)

SERVICE ASSISTANCE—

For assistance in making a call Dial "0" (Operator)

Terms and Conditions UNDER WHICH TELEPHONE SERVICE IS FURNISHED

Use of Telephone

1. The service furnished is for the exclusive use of the subscriber and members of the subscriber's household or the subscriber's employees upon the subscriber's business, and the subscriber shall not extend the use of the telephone to any other person, nor shall the subscriber transmit messages for any other person; and if a residence telephone is used for business or professional purposes the Department may charge therefor the rate charged for business or professional telephones. The residence telephone number of a subscriber may be advertised only in conjunction with the advertising of his business telephone number.

The Department will endeavor to keep the lines and instruments in good working order and undertakes to clear trouble or make repairs with all reasonable despatch, but does not guarantee uninterrupted service.

The right of the subscriber is to use the instruments and connecting lines where the Department may place them, but not elsewhere, under such rules as the Department may from time to time prescribe.

The use of obscene, profane or abusive language while using the telephone is strictly forbidden and service may be immediately discontinued for violation of this rule.

2. The instruments and all accessories connected therewith shall remain the property of the Department and the subscriber shall not remove, alter, or make any attachment thereto. Further telephone service shall be refused to any subscriber who continues to use any unapproved attachment to the telephone after having been advised by the Department in writing that the use of such attachment is not permissible. The subscriber agrees to compensate the Department on demand for any damage, loss or destruction of the Department's instruments and accessories whilst such instruments and accessories are in or upon the premises of the subscriber; the subscriber shall be held responsible for the full cost of repairing any damage caused to buried facilities (drop wire or cable) between the line and his premises, when such damage has been created from or as the result of surface operation on his property.

Construction

3. When it is necessary to erect poles or anchors in order to carry the wires from the main telephone line on the road allowance or street to the applicant's premises, such poles and anchors in connection therewith will be supplied and erected by the Department at the expense of the applicant.

Charges — How Paid

4. All charges for installations, moves and monthly rentals shall be paid in advance, which shall entitle the subscriber to service with all subscribers connected to the same exchange. Regular toll rates will be charged for all service to points outside of the exchange.

4a. The protection of his service from unauthorized use is the subscriber's responsibility and he shall be fully accountable for such use and shall pay in full the charges for all long distance calls completed over his telephone service, whether he has or has not knowledge of, or has or has not authorized such calls.

5. Subscribers shall pay the installation charges, first rental instalment (and construction charges, if any) strictly in advance. Excess mileage charge will be added if outside of exchange limits. If subsequent rental accounts remain unpaid after 25 days have elapsed from date of bill, service shall be discontinued and no rebate or reduction shall be allowed for such interruption to service.

6. Subscribers shall pay monthly, at schedule rates, for all messages and conversations over the Long Distance lines. If said accounts remain unpaid 25 days after date of bill, further credit shall be refused until account is paid.

7. Subscribers shall pay promptly, upon presentation of account, all charges for other miscellaneous items. If these charges are not paid within 25 days from date of bill, service shall be discontinued.

7a. Telephone bills are due when received.

Complaints Re Long Distance Service

8. While the Department will carefully consider complaints in connection with toll service at any time received, it would be appreciated if subscribers would make such complaints immediately after conversation has taken place.

Vacation Allowance

9. Should a subscriber desire to have his Exchange Service temporarily discontinued, owing to the closing of his premises, he may do so without cancelling contract or having telephone removed, and if arranged for in advance in writing, an allowance of two-thirds of the rate per month will be made for a period of not less than one month and not exceeding three months in any one year. Subscriber shall state, when making application, the period for which he expects to be absent and shall pay for this period in advance. Subscriber will notify the Department when he wishes service resumed, either in writing or by calling at the office and signing re-connect order. Owing to the fact that Multi-Party Line Telephones cannot be disconnected without a special trip being made to their location, this regulation will not apply to Multi-Party Line Service.

Moves

10. The telephone is first located where the subscriber directs and must not be moved or interfered with. When the subscriber desires to have the telephone moved to any other location notice in writing should be given to the local office, at least ten days before the change is desired. The work will then be done as promptly as possible at regular charges.

Joint User Service

11. A joint user is a person, firm or corporation who shares the subscriber's exchange service in accordance with tariff provisions. To facilitate this use of service, a directory listing is included.

Business joint user—one-third of business Wall-Set rate.

Residence joint user—50c per month.

Cancellation of Service

12. Subscribers giving up service must notify the Department in writing, or call at office and sign "Take Out" order. Failing to do this, subscriber will be liable for all charges up to date instrument is removed or taken over by a new subscriber.

Directories

13. The Department of Telephones assumes no liability on account of errors in or omissions from its directories. Telephone directories are and remain the property of Alberta Government Telephones, and subscribers will receive only free issue of the particular directory published covering the district in which their listings appear. Copies of other directories published by the Alberta Government Telephones may be obtained from the Directory Department at Calgary upon payment of the regular purchase prices. Free issues are printed for the exclusive use of the Department's patrons and are loaned to its subscribers. All persons are cautioned against reproducing their contents, which are fully protected by copyright. Subscribers must not use any binder, holder or other attachments, except as provided by the Department.

Telephone Numbers

14. The subscriber shall have no property right in the telephone number assigned to him or any right to continuance of service through any particular central office, and the telephone number or central office designation, or both, of the subscriber may be changed upon reasonable notice to the subscriber when the exigencies of the business so require.

Recording of Telephone Conversations

15. A short "beep" tone heard over the telephone about every 15 seconds, indicates that the person with whom you are talking is recording your conversation by means of an electrical recording machine connected to the line. The "beep" signal is produced automatically by a device which connects the recorder to the telephone line and is provided by the Telephone Company for your protection.

If you do not want a record made of what you are saying, ask the person with whom you are talking to disconnect his recording machine. When he disconnects his recorder, the signal is no longer heard.

Use of a recorder without this signal is not permitted.

Public Notice

16. This Department's tariffs are open to public inspection. Information regarding rates for service, tolls and miscellaneous may be obtained upon application from the Department's Business Office.

How to Use the Telephone

DIAL TELEPHONE

NOTE: LETHBRIDGE SUBSCRIBERS SEE PAGE 2

Consult the Telephone Directory for the correct number before you make a call. Do not trust to your memory.

Call "113" for Information if the person or firm you wish to call is not listed in the Directory.

1. **Remove the Receiver.**
2. **Listen for the Dial Tone**—This is a steady humming sound, when received it indicates that the equipment is ready for you to dial.
3. **What to Dial**—It is necessary to dial each figure of the number in rotation.
4. **How to Dial**—Suppose you are calling 2301. To dial this number proceed as follows:
 - (1) Remove receiver and listen for the dial tone.
 - (2) Place your finger in the hole over the figure "2".
 - (3) Turn the dial around until your finger strikes the finger stop then lift your finger and allow the dial to return to rest without touching it.

(4) Repeat this operation for the figures 3—0—1. If you find that you have made an error before you have completed dialing, hang up the receiver for a few seconds, then remove the receiver, listen for the dial tone and after hearing it, dial your call again.

5. **Ring and Busy Signals**—After you have finished dialing you should hear in the receiver either the ringing signal (an intermittent burr-rr-ing sound) indicating that the called telephone is being rung, or the busy signal—a rapid buzz-buzz-buzz—indicating that the called line is busy.

If you hear the ringing signal and receive no answer within a reasonable period, hang up the receiver and call later.

If you hear the busy signal hang up the receiver and after waiting a reasonable length of time call again.

If you hear neither signal within half a minute, hang up the receiver for a few seconds, then remove it and dial again—if the same condition is found after several attempts, dial "114" and report the condition to "Repair Service" operator.

6. **After You Have Finished Talking**—Hang up your receiver. This will disconnect you from the called telephone. Leave your receiver on the hook for a few seconds before starting to make another call.

MANUAL TELEPHONE

Consult the Telephone Directory for the correct number before you make a call. Do not trust to your memory.

Ask for "Information" if the person or firm you wish to call is not listed in the Directory.

1. **To Call the Operator** give one long ring before removing the receiver from the hook and then hold receiver to the ear.
2. **When the Operator Replies** by saying "Number?" give the number of the subscriber's telephone desired, slowly and distinctly.
Example:—"175" should be pronounced "ONE seven five".
3. **Face the Transmitter** with the lips almost touching the mouthpiece. Speak naturally, distinctly and not too rapidly.
4. **Keep the Receiver to the Ear**, and the Operator, after acknowledging, will connect you with the number called for. If the desired line is found to be in use the Operator will report "Line Busy".

5. **When You Have Finished Talking** place the receiver on the hook, small end up, and give a short ring. This gives the operator a signal to disconnect and you are then in a position to call another number or to be called.

NOTE:—At Cardston, Hanna, Lacombe, Fort Macleod and Vermillion (Common Battery Exchange) no ringing, except by rural line subscribers, is necessary. Simply remove receiver from hook and in all other respects proceed as instructed above, placing the receiver on the hook when conversation is finished.

6. **Do NOT Use the Telephone** during a thunderstorm.

7. **Rural Line Subscribers** should limit their conversation to Five Minutes duration and must not "listen in" to conversation not intended for them, as it interferes with the Service.

Complaints—Complaints regarding telephone trouble and unsatisfactory Service should be made to the Local Manager, Agent or Chief Operator at the Office concerned.

ASSISTANCE CALLS AND SERVICE DIFFICULTIES

If for any reason you are unable to dial, or if you encounter repeated difficulties dial "O" (Operator). Operators are always on duty to assist you.

Information on the Use of Long Distance

PLACING A LONG DISTANCE CALL

After reaching the Long Distance Operator:

First—Give the name of the town or the city you are calling.

Second—On Station-to-Station calls give the telephone number you wish to reach.

On Person-to-Person calls give the number and name of the particular person, extension or department with whom you wish to speak.

Third—When the operator asks for it, give the telephone number from which you are calling.

For Faster Service—Call by Number. Your Long Distance calls will be completed more rapidly if you give the operator the out-of-town telephone number.

Initial and Overtime Rates—All rates quoted are for a three-minute period. The overtime rate per minute is approximately one-third of the rate for the initial three-minute period.

Night and Sunday Rates—Low night rates are in effect from 6 p.m. to 4:30 a.m. weekdays and all day Sunday. The time in effect at the center where the call originates determines the rate which applies.

Requesting the Charges on a Call—If the charges on a call are required immediately, tell the operator **WHEN YOU PLACE THE CALL.**

Collect Calls

If you wish the charges billed to the distant telephone, tell the operator **WHEN YOU PLACE THE CALL** that it is to be a "Collect" call. She can then determine whether someone at the distant telephone will accept the charges.

Messenger Calls

A Messenger call is a Person-to-Person call requiring the services of a messenger to request the called party to come to a nearby telephone. The order should be given to the Long Distance operator in the usual manner.

Rates

Station-to-Station rates are charged when you will speak with ANYONE who answers at the called telephone. Charges begin when the called telephone answers.

Person-to-Person rates are charged when you wish to speak to a particular person, extension or department. Charges begin when the specified person, extension or department answers, and are slightly higher than Station-to-Station calls.

To Places connected with the Long Distance Lines of the Alberta Government
Telephones and Connecting Systems in Alberta.

NOTE:—These Rates are Subject to Change Without Notice.

NOTE:—These Rates are Subject to Change Without Notice.
