

EMERGENCY PLANNING GUIDE – FLOOD AND TOXIC GAS

Tornadoes continued

- If a tornado catches you outdoors, take shelter immediately. As a last resort, lie flat in a ditch, excavation or culvert.

- If you are driving and spot a tornado heading in your direction, drive away from its path at a right angle. Do not remain in the car, you may be trapped if it overturns.

- If no shelter can be found, hang on to a small tree or shrub.

FLOOD SAFETY GUIDE

BEFORE THE FLOOD

- Stay tuned to local radio/television stations for public information and instructions.
- Keep a portable battery radio, emergency lights and flashlights in working order.
- Keep your vehicle fuelled.
- Keep a stock of food which requires little cooking and no refrigeration as electrical power may be interrupted.

WHEN YOU RECEIVE A FLOOD WARNING

- Store drinking water.
- Remove valuables from basements or lower floors.
- Plug basement outlets: sewers, drains, sinks, toilets and laundry outlets.
- Move to a safe area before you are isolated by flood waters.

DURING A FLOOD - DON'T PUT YOURSELF IN PERIL

- Do not attempt to cross on foot any flowing stream in flood.
- Do not attempt to drive over a flooded road. You could be stranded.
- Stay out of the flood area.
- Do not phone Disaster Services, Police or Fire Department unless you need help or are calling on behalf of others requiring assistance.

AFTER THE FLOOD

- Check with local health authorities on drinking water purity.
- Necessary medical, welfare and other needs are available at established local evacuation centres or at those places publicly designated.

- Do not visit the disaster area. Your presence will hamper rescue and other emergency operations.
- Report broken utility lines to appropriate authorities.
