

Emergency Planning Guide - Flood and Toxic Gas

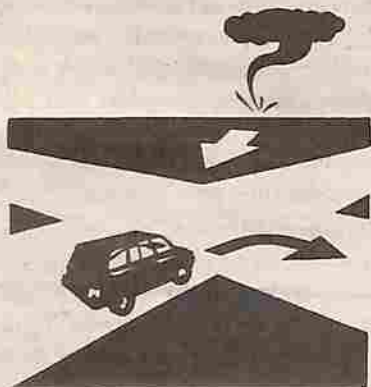

Tornadoes continued

- If a tornado catches you outdoors, take shelter immediately. As a last resort, lie flat in a ditch, excavation or culvert.

- If you are driving and spot a tornado heading in your direction, drive away from its path at a right angle. Do not remain in the car, you may be trapped if it overturns.

- If no shelter can be found, hang on to a small tree or shrub.

FLOOD SAFETY GUIDE

Before the flood

- Stay tuned to local radio/television stations for public information and instructions.
- Keep a portable battery radio, emergency lights and flashlights in working order.
- Keep your vehicle fuelled.
- Keep a stock of food which requires little cooking and no refrigeration as electrical power may be interrupted.

When you receive a flood warning

- Store drinking water.
- Remove valuables from basements or lower floors.
- Plug basement outlets: sewers, drains, sinks, toilets and laundry outlets.
- Move to a safe area before you are isolated by flood waters.

During a flood - don't put yourself in peril

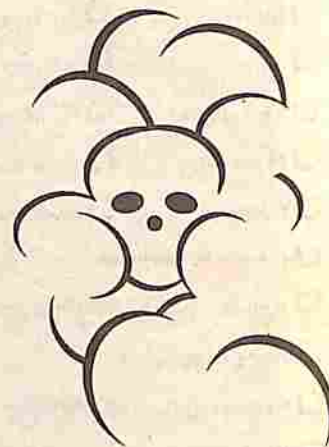

- Do not attempt to cross on foot any flowing stream in flood.
- Do not attempt to drive over a flooded road. You could be stranded.
- Stay out of the flood area.
- Do not phone Disaster Services, Police or Fire Department unless you need help or are calling on behalf of others requiring assistance.

After the flood

- Check with local health authorities on drinking water purity.
- Necessary medical, welfare and other needs are available at established local evacuation centres or at those places publicly designated.
- Do not visit the disaster area. Your presence will hamper rescue and other emergency operations.
- Report broken utility lines to appropriate authorities.

TOXIC GAS SPILL/CLOUD

(from a plant, warehouse, pipeline, oil-gas well, tank rupture or spill)

Actions to take

1. Stay indoors.
2. Stay tuned to local Radio/Television stations for public information and instructions.
3. Close (and keep closed) all doors and windows.
4. Turn off air conditioners, furnaces, water heaters and their pilot lights.
5. Close all exterior air intakes and vents.
6. Do not operate clothes dryers, kitchen/bathroom vent fans, range hood vents.
7. Do not operate light switches.
8. If outside, seek shelter in a large enclosed public building.
9. If in a vehicle, move away from any identified "danger area".
10. Shut off all heater, fresh air, air conditioner and ventilator intakes or windows to the vehicle.
11. Keep away from "danger areas" as announced, and follow instructions of emergency service personnel.
