

# The Potential to Save or Waste . . . The Choice is Ours.

AGT produces 22 different telephone directories each year, for a total of 2.4 million copies, consuming 3900 tonnes of paper annually. The amount of paper is only a small percentage of the total volume of paper used in Alberta annually and it's paper that just doesn't have to be thrown away.

All of AGT's directories are recyclable. We have been working with recycling companies to make it easier to recycle the directories. We also work with our suppliers and production people to make sure the methods and products used to produce the directories are non-wasteful.

Concern's and ideas expressed by you, our customer, have resulted in many of the positive steps we have taken.

The paper we use in our directories is more than 20 percent lighter than regular newsprint and we are now testing directory newsprint that is an additional 5 percent lighter.

Our inks are made from vegetable oil, which is a renewable resource, and therefore more friendly to the environment.

The paper used in our directories contains recycled fiber. The glue we use to bind our directories is needed to hold the directory together. Research is being conducted to improve the biodegradability of the glue. However the glue does not affect the recycling process, when converting directories into such things as fibreboard, shingles and egg flats.

**AGT's commitment to Quality extends to:**  
**our customers,**  
**our communities,**  
**our environment.**

---

# IN YELLOW PAGE ADVERTISEMENTS

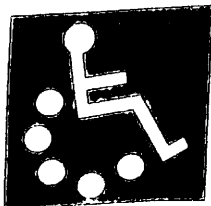

## THESE SYMBOLS DENOTE ACCESS FOR DISABLED PEOPLE

Advertisers are now being encouraged to designate whether or not their premises and facilities are accessible to disabled persons. In this regard, two levels of accessibility are used which are based on the following criteria:

This symbol designates that the premises and facilities of the advertiser meets the building requirements for persons with disabilities as set out in Building Design Guide Book. A copy of this book may be obtained by writing:

**Building Standards Branch Alberta Labor  
Rm. 705, 10808 - 99 Ave., Edmonton T5K 0G5**

This symbol designates that the direct access to the premises and the business' facilities meets the basic requirements of wheelchair users. These are: a space of parking, a reasonably smooth approach to a main entrance or elevator, leading to the business' facilities without stairs: the entrance door being of minimum width of 815 mm. (2'8"). and a 2'8" bypass if a turnstile is present. This symbol also designates that some of the facilities within the premises may not be accessible, therefore, disabled persons should contact the advertiser to make enquiries regarding their special needs.

**Responsibility:** AGT is not responsible for assessing or qualifying whether a facility meets the necessary criteria. The onus is on the Yellow Page advertisers to ensure that their premises meet the requirements as indicated by the symbol in their advertisement.

# DISTRICT SECTION

**ACHESON— See Spruce Grove**

## ALBERTA BEACH
