ORGANISING COMMITTEE

Smt. Usha C, .Asst. Professor,

Smt. Sreelatha , Asst. Professor,

Sri Manjunath R, Asst. Professor

Mr. M. Pramod Kumar, Instructor,

Mr. Padmanathan, SDA,

Mr. Nooral Haq, Mechanic

Mr Pramod M N Asst. Instructor

RAMAIAH
Institute of Technology

Six Day Faculty Development Programme

On

**“Current Issues of
Geo-Environmental Pollution”**

DATES: 23rd - 28th July, 2018

Organized By

**Department of Civil Engineering
Ramaiah Institute of Technology,
(Autonomous Institute, Affiliated To VTU)
Bangalore - 560 054**

ABOUT THE INSTITUTION

Ramaiah Institute of Technology was started in 1962 by the late Dr. M.S. Ramaiah, our Founder Chairman who was a renowned visionary, philanthropist, and a pioneer in creating several landmark infrastructure projects in India. Noticing the shortage of talented engineering professionals required to build a modern India, Dr. M.S. Ramaiah envisioned MSRIT as an institute of excellence imparting quality and affordable education. Part of Gokula Education Foundation, MSRIT has grown over the years with significant contributions from various professionals in different capacities, ably led by Dr. M.S. Ramaiah himself, whose personal commitment has seen the institution through its formative years. Today, MSRIT stands tall as one of India's finest names in Engineering Education and has produced around 35,000 engineering professionals who occupy responsible positions across the globe.

ABOUT THE DEPARTMENT

Established in 1971, the Department of Civil Engineering is today one of the largest departments of MSRIT and consists of professionals with specialization in various fields of Civil engineering. The Department holds a patent for Total replacement of Sand in Concrete by Pond Ash (Patent No 244063). This is pioneering work in the field (not done by anyone else at that point in time anywhere in the world). The research was focused on finding alternatives to sand, a natural resource that is getting increasingly scarce and is even banned from use in many states. Initial success in using Pond Ash as a partial substitute to sand encouraged the group to try and replace the entire sand in concrete by Pond Ash without compromising on strength and durability.

Extensive research enabled the group to successfully achieve the objective of Total Replacement of Sand in concrete by Pond Ash.

THEMES

- Geo-environmental problems
- Contamination of ground water
- Soil pollution
- Soil remediation
- Landfill design

RESOURCE PERSONS

Experts from reputed Institutions & from the Industry

ELIGIBILITY

Faculties from AICTE approved & VTU affiliated Engineering colleges/Institutions are eligible to attend by registering with a fee of **Rs.700/-** (for faculties) and **Rs. 300/-** (for students). Please send the D.D. drawn in favor of **“The Principal, M.S.R.I.T., Bangalore”**.
