Date 28/6/18

Dear Student:

Welcome to M S Ramaiah Institute of Technology, Bangalore. If you are a first-time freshman, the College will be your academic home away from home for the next four years. The College is designed to provide consistent, high-quality and appropriate academic advising, monitoring, mentoring, nurturing and coaching to ensure your academic and personal success. We believe that with all of the support services available, including tutoring and Supplemental Instruction, no student should earn any grade below a B. Even so, your academic success depends on how well you take responsibility for your own education, including taking initiative to achieve academic excellence. It is up to you to take advantage of these services as soon and as often as you need them. To assist in your transition to the college, you will be assigned an academic advisor to guide you to your destination - **Graduation**. You and your advisor will review and sign an advising syllabus indicating what you need to do to be a successful and competent student.

Your assigned advisor and other advisors in the College will be available to you on a daily basis, and you will be required to see them regularly. In addition, your advisor will receive regular progress reports from each of your professors for the first eight weeks of classes. We want you to be successful and we will do all that we can ensure that you are successful – but you must do your part as well.

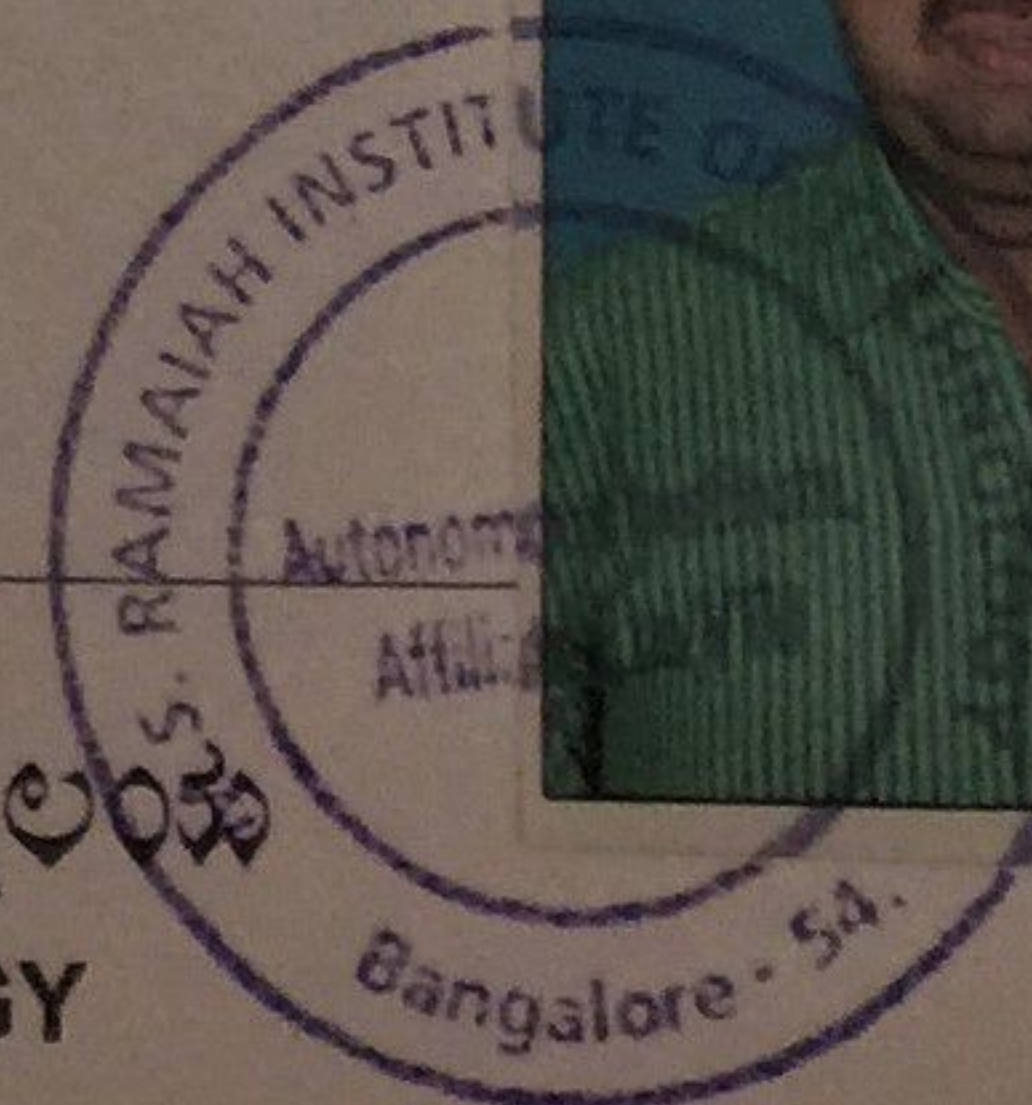

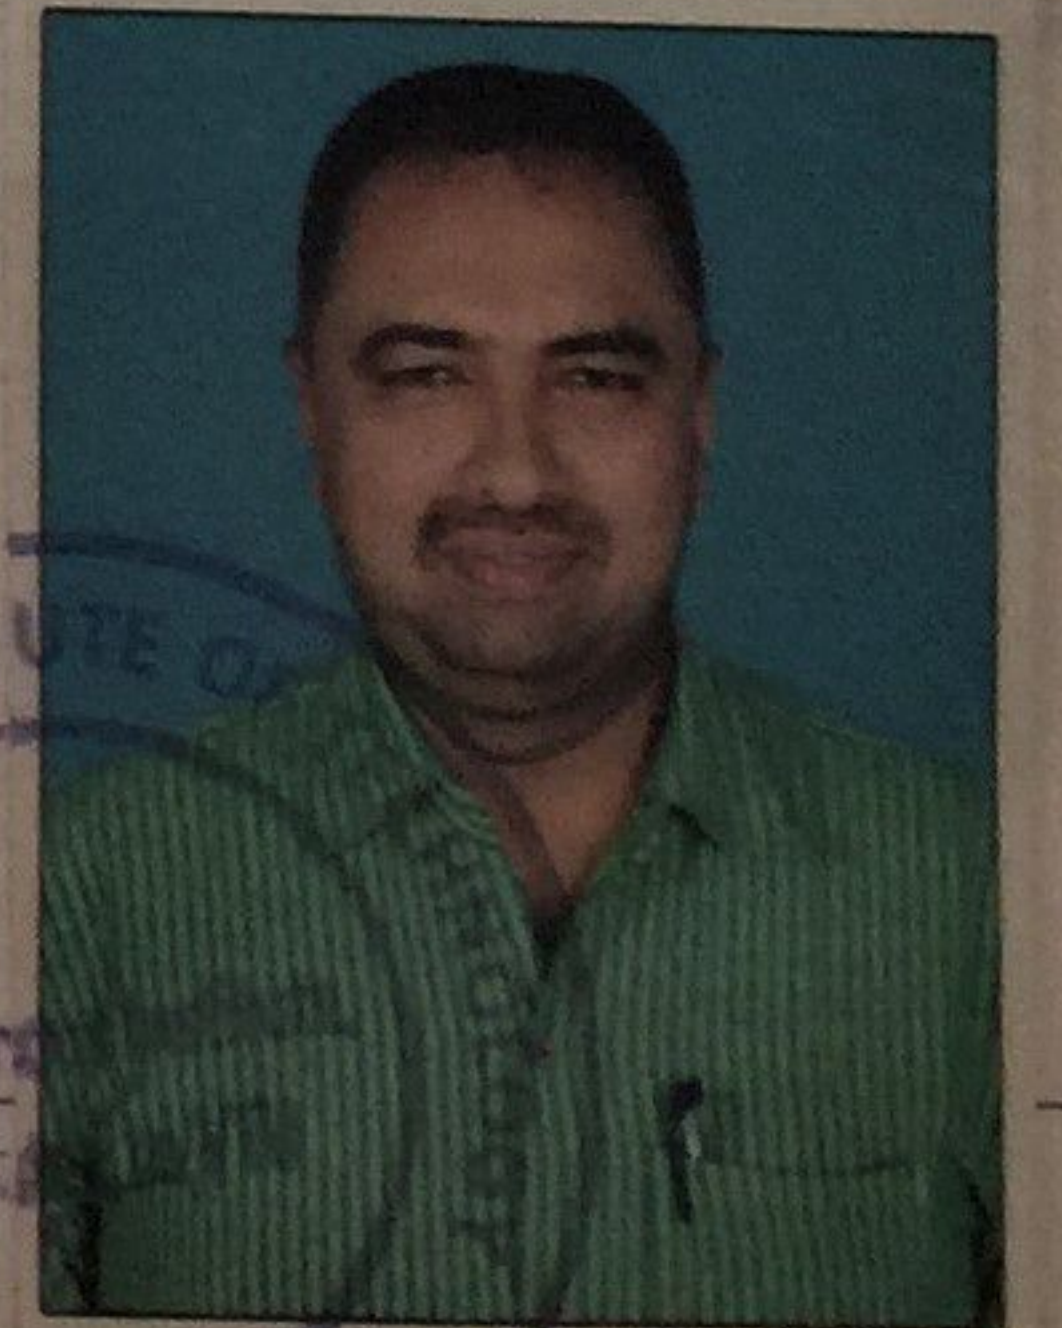

At the end of your first year, you will take part in a comprehensive assessment and clearance regarding other requirements from the controller of Examination, M S Ramaiah Institute of Technology. When this is successfully completed, you will transition to the department of your major discipline.

We look forward to supporting your academic and personal success at M S Ramaiah Institute of Technology, Bangalore

Sincerely,  
28/6/18
