

Artful Persuasion: Artists Helping Scientists Convey the Realities of Climate Change

Friday March 12, 12 - 1 pm

"Katrina: Came Hell & High Water" -36 x 38 x 2" fused & foiled hanging glass mosaic thermograph by Lin McJunkin, 2006

WSU-Mount Vernon NWREC
Brown Bag Lunch Speakers Series

16650 State Route 536. **Mount Vernon**, WA 98273 FREE

What: Slideshow and shared conversation

Who: Sculptor and science educator **Lin McJunkin** from Conway, WA

Lin shows powerful examples of student and adult artwork, including some from WSU researchers, that artfully informs the public of scientists' messages about climate change issues. The images also help to persuade viewers to take action about what many consider the most critical environmental challenge of all time.
