**405.170 "M-1" Light Industrial District Regulations**

A. *Purpose.* The intent of the "M-1" Light Industrial District is to provide a designated location for restricted manufacturing and related uses which are separated from dissimilar uses.

B. *Uses Permitted.*

1. Any use permitted in a "C-2" Zoning District.

2. Industrial and manufacturing plants where the process of manufacturing or the treatment of materials is such that only a nominal amount of dust, odor, gas, smoke or noise is emitted and not more than fifty percent (50%) of the lot is used for the open storage of products, materials or equipment.

3. Any establishment which provides for the manufacture and/or shipping of products or goods relating to the manufacturing of brooms; candles; carpet; clothing; creamery or dairy products; bottling plant, furniture; ice; insulation; various machines; mattresses; pharmaceuticals; paper; textiles; or similar manufacturing of preassembled parts.
4. Any establishment which provides supplies and/or services primarily to commercial and industrial customers, such as janitorial services, sign shops, packaging or shipping service.
5. Agriculture implements sales and service, excluding the storage of scrap or wrecked tractors; parts; and associated agriculture implements.
6. Auto or vehicle racing tracks, including go-carts, motorcycle or relating events or attractions given that such use is located not less, than two thousand (2,000) feet from any residential district.
7. Mobile home, manufactured or modular homes sales, excluding the manufacturing of the same.
8. *Communication towers.* Communication towers shall be located in accordance with the following restrictions:
  - a. *Setbacks.* The following setbacks shall apply to all communication towers:
    - (1) The minimum setback from all property lines shall equal to fifty percent (50%) of the height of the tower.
    - (2) The minimum setback from the edge of any existing or planned right-of-way shall be eighty (80) feet.
    - (3) The minimum setback from any residential district shall be two hundred (200) feet.
    - (4) Peripheral supports and guy anchors for towers may be located within required setbacks, provided that they shall be entirely within the boundaries of the property on which the tower is located and shall be no closer than fifty (50) feet from any residential district.
  - b. *Height.* The principal support structure for communication towers shall be permitted to exceed the height limit of the zoning district in which it is located, provided that setback standards of this section shall apply.
  - c. A security fence or wall of not less than seven (7) feet in height from finished grade shall be constructed around each communication tower and around each guy anchor and peripheral support. The fence or wall shall comply with the following standards:
    - (1) Access to the tower shall be through a locked gate in the required fence or wall.

- (2) If the communication tower is adjacent to a residential district or a lot occupied by a residential dwelling unit, the required fencing shall consist of a masonry wall or solid fence with trees and shrubs planted along the exterior of the fence or wall. At least one (1) tree and two (2) shrubs shall be required for each thirty linear feet of wall or fencing.
- (3) If high voltage is necessary for the operation of the communication tower and it is present in ground grid or in the tower, signs located every twenty (20) feet and attached to the fence or wall shall display in large bold letters the following: "HIGH VOLTAGE — DANGER"
- d. *Airport approach paths.* Communication towers shall not encroach into or through any public or private airport approach path as established by the Federal Aviation Administration (FAA).
- e. *Removal of obsolete towers.* All obsolete or unused communication towers shall be removed within twelve (12) months of cessation of use by the legal owner of the tower, at the expense of the owner.
- f. *Electromagnetic radiation.* Communication towers shall comply with all applicable Federal Communication Commission (FCC) standards for non-ionizing electromagnetic radiation (NIER).
- g. *Locating on existing towers.* Telecommunication equipment shall be permitted to be located on top of existing towers, such as water, radio, television or other communication towers. Minimum setbacks shall only apply to additional peripheral support structures.
- h. *Monopole telecommunication towers.* In an effort to reduce the visual blight and wasteful use of land, applicants requesting zoning approval to construct telecommunication towers shall provide justification to the City for the construction of a guyed or lattice tower instead of installing a monopole tower. Property not already zoned for telecommunications towers shall be evaluated for such a use based upon the composition and use of the land intended for the location of the tower. Guyed or lattice tower construction may be grounds for denial of a zoning change or special use permit.
- i. *Co-location.* Co-location potentially reduces visual blight and the wasteful use of land by reducing the number of telecommunication towers. Co-location of wireless communications equipment for more than one (1) provider at a single communications facility shall be provided upon application for a change in zoning classification for the construction of a telecommunication tower. Failure to provide for co-location on towers may be grounds for denial of a zoning change or special use permit.
