136	In general, I think we need to think of flow and designations for areas. How can we plan housing/tourism with flow to buisness areas and places with parking. How can we allow for safe bike/pedestrian and summer vehicle traffic across rt 1. Rt1 is dangerous and divides York. Finally, how can we make more buisnesses year round, and where would be good places for these to be located centrally to encourage business to business errands/recreation.	10/16/2021 9:55 AM

153	Stop! The moratorium worked and kept things manageable. You are overbuilding York in leaps and bounds and destroying what is important to this community. There are areas I cannot afford to live - and that is the way of the world. If you want to put your money where your mouth is if you feel good about low income housing put it on the oceanfront! How about one of you rich people give up your land to have a housing development added to the waterfront. That would be real equity.	10/15/2021 11:32 AM

We have a true sense of community that many "growth" towns lack. Tourists and residents love our town because of our smart foresight/wisdom to embraced open and natural spaces/resources and avoided the suburban sprawl. So if we add a sports complex to the middle school witch is off the main road with more parking in the surrounding areas we would lower the rate of accidents. 46	The resources are OVER protected. There should be focus on building wide carriage type trails through all the Land Trust and protected areas to allow for walking and bicycling (similar to what is at Acadia National Park). Also, the protected lands are NOT properly maintained. The trees are not pruned, fallen trees are not cleared, the forest is overgrown and not healthy, the areas along the riverbank are allowed to erode causing massive amounts of silt to spill into the river and fill our harbors during heavy rains. The Land Trust and the Olde York Historical Society should be held responsible and accountable to fund and maintain all of their tracts of lands in a responsible manner, and certainly they can and should obtain donations from the public and their members to support those efforts.	10/16/2021 10:47 AM
47	In general, I am not aware of dangers, however I do want natural areas protected. Trails beyond our backyard (west of rt 1) are absolutely torn apart by ATV's, making it a muddy mess to try to hike, bike or snow shoe.
