Card base (8-1/2 x 11") ... I have used either designer paper or another piece of cards (embossed) as a background. This piece measures 4" x 5-1/4".

You will begin with two squares measuring 2-5/8" x 2-5/8" ... these two pieces will become your base.

Cut 8 squares (4 each of 2 contrasting colors or designer papers) measuring 1-1/4" x 1-1/4"

Next, adhere the two large squares to each other at right angles to make the base for the pinwheel. If you want a guide to help you get them straight, try using a piece of grid paper as a guide.

Once your base is ready, you will begin attaching the smaller squares alternating colors. NOTE: When attaching your first square - Only put adhesive on the right side of the paper when attaching to base.

When you get to the last square you will have to pick up the left side of the (first square) and slip it underneath.

You can complete the Pinwheel by placing an embellishment in the center.
