Directions:

Take an A2 envelope and fold it in half. Reinforce the fold. Open the envelope and cut a very small "V" using the fold as the center...it doesn't have to be perfect, this just allows for the flaps to lay flat.

Take the flap on the right side, put adhesive on it, open the envelope and adhere to the inside. Take the left flap and adhere to the outside. Decorate outside and left inside panels with 2 3/4" X 4 1/4" DSP.

To make the Tag Pull Out Piece:

Cut a piece of cardstock 7" X 2" and score at 5". Punch with Scalloped Tag Topper punch. Place gift card in the bottom (vertically) with the flap on top, add adhesive to the top of the cardstock and secure belly band measuring 6" X 1 7/8" (This can be a little snug as long as the gift card will still slide out). Reinsert the pull out piece with the gift card left in. This is only for sizing purposes, you can remove the card later. Loop ribbon through the opening at the top and trim tails.

Finishing Up:

Close the card holder. Cut a strip of Cardstock or DSP that measures 1 1/4" X 7". Wrap around the gift card holder with the seam in the front facing you. You want to have the band, slightly snug, yet still be able to slide off and on the holder. Adhere both sides with Snail to complete the band. When putting your decorative item on, remember to only put adhesive on the belly band, so that your decorative piece will stay attached to the band and not the holder.

Supplies Used:
