Take a piece of **Basic White Cardstock** and cut it to 5 1/2" x 8 1/2". Score it halfway at 4 1/4". Fold it and use a bone folder to make a nice crease

Cut a piece of Real Red Cardstock to 5 1/4" x 4". Align it on the front of the white card base so that it is centered and straight. Holding it in place, use the **Heartfelt Hexagon punch** to punch through the both pieces, making sure to only punch through the front of the white card base. Set the card base aside for now.

Punch out hexagons from the **Most Adored Designer Series Paper**. I punched out two of each paper so I could see every pattern when arranging them. You won't need quite that many but it's nice to have options.

Take the Real Red piece that has been punched through and arrange the DSP pieces so they form a grid pattern. Lay them out to make sure you like the design before gluing any. Next, glue them into place, starting with the two whole pieces in the middle of the card and then go to the edge pieces. Once they are glued, wait a few seconds to let them dry and then hold the Real Red cardstock piece upside down and use scissors to trim the excess DSP off. I did this one side at a

time, instead of having them all hanging off the edge while I trimmed them.

Now, take the hexagon covered piece and glue it onto the front of the card. The pieces will align just as you punched them, and you can use the punch holes to make sure they are lined up.

Finally, stamp the sentiment from the **Heartfelt Hellos stamp set** using a **Real Red ink pad** into the window of the card. I do it with the card closed so that it is easier to center in the window.

I stamped the same sentiment on the flap of the envelope, but I only wanted the word "Love". Some of the rest of the stamp got on the edge so I used a **Real Red Stampin' Write Marker** to make a border on the flap and hide the mistakes.
