- Now that the paper is in half, cut 1/2" off across the top of the image row.
- Cut 1/4" off the bottom of the image row.
- Cut each image across so each image will measure 4".
- Each layer will measure 4" X 5 1/4".
- Die cut or punch a 1 3/4" circle from Basic White cardstock. This is the sentiment layer.
- You need a scrap of Pretty Peacock cardstock for the die cut element.
- Cut a 3 3/4" x 5" Basic White cardstock layer for the inside writing layer.

### Ger Inky:

- Use this easy ink splatter technique to splatter the cocoa bean layer. See below.
- Add a small drop of Pretty Peacock ink to the center of a clear block.
- Fill the Water Painters with water.
- Press on the sides of the Water Painter - adding a little water to the ink drop and mix it.
- Place your cocoa bean layer onto a sheet or paper to protect your work surface.
- With the watered down ink on the Water Painter brush, tap it with your finger over the patterned paper layer to splatter the ink.
- Add as much splatter as you like.
- Let me know if you have fun doing this. I did!

- You can clean your block and brush with a paper towel. (If you press on the sides of the painter, water will run through the brush, making it easier to clean)
- Adhere the cardstock layers as shown.
- Cut three 2" strips of the Faux Leather Trim.
- Using your silicone mat, lay one of the "leather" strips flat with the gold side up. Add a thin line of glue to the side and attach the second strip to the side. Hold it there for a few seconds to make sure it holds. Repeat the same process with the third leather strip.
- Adhere the Pretty Peacock die cut to the top of the glued together leather strips as shown. You can use a large glue dot or liquid glue.

- Adhere this cluster to the card front.
- Stamp the sentiment circle and attach it to the top of the element cluster with dimensionals or glue.
- See below.

Attach the writing layer to the inside of the card and embellish the front with decorative dots as you wish.
