...the only limitation is your imagination

There is a Supply List at the end of this Tutorial. The Bundle and Designer Series Paper are Sneak Peeks. They will be available to customers on May 1st.

For those who don't know, my card design is a Step Fun Fold. It's been around for a while, and there are many versions of it. It's actually easier than you think.

So let's make a card!

Cut and Score the card base.

- I cut a Petunia Pop cardstock card base 5 1/2" x 8 1/2".
- On the 5 1/2" side, place the cardstock from right to left on the Paper Trimmer up to the 1 1/4" mark.
- Lift the clear arm and move the cutting blade to the 1" mark (on the side ruler), cut down to the 4 1/4" mark.
- Move the cardstock to the 4 1/4" mark and repeat the instruction line above.
- Rotate the cardstock to the long side making sure the larger panel is on the right.
- Move the cardstock to the 1" mark on the top ruler.
- With the scoring blade, score from the top down to the 1 1/4" mark on the side ruler. Lift the scoring blade. Move the blade to the 4 1/4" mark and score to the bottom of the cardstock.
- Slide the cardstock to the 2" mark on the top ruler and repeat the instruction line above.
- Slide the cardstock to the 4 1/4" mark on the top ruler.
- Lift the scoring blade and bring it down to the 1 1/4" mark on the side ruler. Score from the 1 1/4" mark to the 4 1/4" mark on the side ruler.

- Slide the cardstock over to the 5 1/4" mark on the top ruler.
- Score from the top down to the 1 1/4" mark on the side ruler.
- Lift the scoring blade, go to the 4 1/4" mark on the side ruler and score to the bottom of the cardstock.
- Fold the card as shown at the end of this tutorial.

Cut the mat and patterned paper layers.

- Cut two Basic White mat layers 1 1/8" x 3 1/8". These are for the side front panels.
- Cut one Basic White mat layer 7/8" x 5 3/8". This is for the bottom of the card front.
- Cut one Basic White mat layer 2 7/8" x 3 1/8". This is for the center front panel.
- Cut two patterned paper layers 1" x 3" (side front panels).
- Cut one patterned paper layer 3/4" x 5 1/4" (bottom layer).
- Cut one patterned paper layer 2 3/4" x 3" (center front panel).

Adhere the layers as shown below. Fold and burnish as shown on all of the score lines. The folds will form the step design.

You can add a writing layer to the inside. I used Basic White cardstock cut at 3 1/8" x 5 3/8". I added a patterned paper strip and little flower.

So, I hope you enjoyed this tutorial. As always, if you have any questions, please reach out to me.

Happy stamping!

Debbie
