...the only limitation is your imagination

Supplies Used: There is a complete Supply List at the end of this Tutorial.

Make The Cuts:

- Cut a cardstock card base 4 1/4" x 8".
- Score the card base at: 1 1/4", 2 1/2", 5 1/2", and 6 3/4".
- Cut the Designer Series Paper layers as follows:
 - Note: I used a "scene" pattern, so take a look at the video for tips on cutting the patterned paper.**
 - Cut the left top front patterned paper layer 4 1/8" x 1 1/8".
 - Cut the center patterned paper layer 4 1/8" x 3".
 - Cut the right top front panel patterned paper layer 4 1/8" x 1 1/8".
 - Cut two coordinating patterned paper layers for the left and right inside panels of the "shadow box".
- Cut a Thick Basic White cardstock layer 2 3/4" x 5 1/2". This is for the front "bridge" of the card. Die cut this layer using the mountain die from the Forever Forest Dies.
- Cut a Thick Basic White cardstock layer 2 3/4" x 4". This is for the shadow box "inside" mountain range. Score this layer 1/2" on each side. These score lines will create tabs for your glue to attach to the card base.
- Die cut the layer using the mountain die from the Forever Forest Dies.
- Die cut an odd number of tree elements using the Forever Forest Dies.
- Cut a Basic White cardstock sentiment layer 1/2" x 5 1/2".
- Cut the Basic White cardstock writing layer (this will be attached to the back of the card), 2

3/4" x 4".

Assemble The Card:

- Fold the card base as follows: Starting from the right side, fold the first panel back (this is a mountain fold), Fold the second score line forward, (this is a valley fold), Fold the third score line to the front - a valley fold, Fold the fourth score line back, (a mountain fold).
- Attach the patterned paper layers as shown. (If you're using a scenic pattern, take a look at the video for cutting tips).
- Attach the two coordinating patterned paper layers to the inside card base panels. See below.

- Add glue or Tear & Tape to the left and right "tabs" (these are the 1/2" score lines) of the smaller mountain range.
- Attach it to the inside of the card as shown above. Attach up from the bottom of the card base about 1/2". (See video for an easy "how to").
- Attach the tree elements to the smaller inside mountain range. Refer to the video - I placed

glue on the front of some elements and on the back of others.

- Attach the larger mountain range to the front of the card as shown below. You can refer to the video for easy assembly.

- Attach the tree elements to the front mountain range as shown.
- Attach the sentiment layer to the bottom of the front mountain range with Dimensionals.
- Attach the writing layer to the back of the center panel of the card base.

- Add embellishments. I used white sequins for this card.
- **That's it. Please refer to the video for easy assembly. You can click on this link:**
<https://youtu.be/e1cjmjY7K2Y>

I hope you enjoy this tutorial, and the corresponding video as much as I enjoyed preparing them.

As always, if you have any questions, please reach out to me. I will respond.

Thank you for stopping by today.

Debbie
