*...the only limitation is your imagination*

3-D Five Point Star

## Supplies Needed:

- Scissors, Multipurpose Glue, Brightly Gleaming DSP or Favorite Paper, Simply Scored Scoring Tool, Ruler, Small hole punch, Gold Cord.

## Preparation:

1. Print out the attached template. Note: If you can use a heavier paper in your printer for the template, you can trace it easier.
2. Cut out template and trace it onto your paper.
3. Cut out your patterned paper stars.
4. Once star is cut, score on the dashed lines as indicated and fold scored lines in toward the center of the star.

<http://www.expressivelydeb.com>

1. Put a thin line of glue on each tabbed edge on the bottom and top pieces of the star.
2. Line the top and bottom up with each other and hold pinch until the glue is set.
3. Repeat line 7 on each of the remaining points of the star.

Your star is complete!
