- Grid Paper
- Stampin' Cut & Emboss Machine

1. Card Cuts:

- Card Base - Cut 1 Cherry Cobbler cardstock to 8-1/2" x 5-1/2", score at 4-1/4"
 - DSP Panel - Cut 1 white and red berry print from the Joy of Christmas Designer Series Paper to 5-1/4" x 4"
 - Scraps of Basic White, Old Olive and Lemon Lime Twist cardstock for die cutting the sentiment letters and wreath components
 - Sentiment Label - Cut 1 Basic White cardstock to 4-1/2" x 1"
 - Inside Panel - Cut 1 Basic White cardstock to 5-1/4" x 4"
 - DSP Strip - Cut 1 white and red berry print designer series paper to 4" x 3/4"
 - Envelope Flap - Cut 1 coordinating designer series paper to 6" x 2-1/4"
2. From a scrap piece of Old Olive cardstock, punch out a circle using the 2" Circle Punch. Save the circle for another project later. Next, use the 2-3/8" Circle Punch and punch again on the same piece of cardstock, centering the punch over the 2" circle you previously punched, and center then punch. This will create a circle frame that you can use to build your wreath on. It is much easier to have something to glue the pine boughs to!
 3. Using the Joy of Noel Dies, die cut 7 pine boughs from Old Olive cardstock. Die cut a total of 7 small greenery stems from scraps of Lemon Lime Twist cardstock. Note that the die for the small greenery stems cuts multiple stems at one time...you need about 7 of these.
 4. Using the circle frame you created from Step #2 above, start adhering the pine boughs to the circle frame. When gluing down to the circle frame, make sure that the next pine bough you glue partially covers the bottom of the previously glued pine bough. Work your way around the circle frame until the frame is covered with pine boughs. Next, glue down the Lemon Lime Twist greenery stems and space evenly around the wreath, making sure to tuck the ends under the pine boughs.
 5. Adhere the DSP panel to the front of the card base, then use glue to adhere the wreath to the center of the card front.
 6. Using the NOEL stamp from the Joy of Noel Stamp Set, stamp the sentiment onto a scrap piece of Basic White cardstock using Cherry Cobbler ink. Use the Joy of Noel Dies to cut out the letters.

7. Using a piece of grid paper (with 1" measurements", lay the 4-1/2" x 1" white sentiment label onto the grid paper and line up the center point of the label with the center point on the grid paper. You will use the 1" measurements on the grid paper to help you line up and glue down the NOEL die cut letters. **I found it helpful to use a piece of Post It Tape to hold down the sentiment label onto the grid paper while I was gluing the letters down.** Line up each letter within a 1" grid so that they are centered. Once all of the letters are glued down, carefully remove the Post It Tape.
8. Apply a double stack of Stampin' Dimensionals to the left, center and right side of the sentiment label, then adhere the sentiment label over the wreath on the center of the card.
9. On the inside panel, adhere the designer series paper strip to the right side of the panel and leave about a 1/4" of the panel showing on the right side of the strip. Stamp the sentiment "Making spirits bright" onto the panel in Cherry Cobbler ink. Stamp the berry image onto the lower left corner of the panel using Cherry Cobbler ink. Adhere the panel to the inside of the card.

10. Tie a bow using the White Iridescent Ribbon and adhere the bow to the top of the wreath using several Mini Glue Dots.
11. Stamp the berry image onto the lower left corner of the envelope front.
12. Adhere the piece of coordinating designer series paper to the envelope flap and trim the excess paper away from the flap.
