Project Sheet - Nov 22 2024

- Card Base - Cut 1 Cherry Cobbler cardstock to 8-1/2" x 5-1/2", score at 4-1/4"
 - Outside & Inside Mats - Cut 2 Gold Textured Metallic Specialty Paper to 5-1/4" x 4"
 - DSP Panel - Cut 1 Cherry Cobbler and Gold Regal Distressed Specialty Designer Series paper to 5" x 3-3/4"
 - Die Cut Sentiment - Scraps of Cherry Cobbler cardstock and Gold Textured Metallic Specialty Paper
 - Die Cut Trees - Cut 1 Gold Textured Metallic Specialty Paper to 4" x 3"
 - Inside Panel - Cut 1 Basic White cardstock to 5" x 3-3/4"
 - Envelope Flap - Cut 1 coordinating piece of designer series paper to 6" x 2-1/4"
2. Adhere the Regal Distressed Specialty Designer Series Paper panel measuring 5" x 3-3/4" to one of the Gold Textured Metallic Specialty Paper mats using liquid glue. Adhere this unit to the card front using Stampin' Dimensionals.
 3. From the Peaceful Seasons Dies, die cut 1 detailed "Christmas" sentiment from Cherry Cobbler cardstock and cut 1 background "Christmas" sentiment from Gold Textured Metallic Specialty Paper. To make it easier to adhere the Cherry Cobbler sentiment to its gold background, apply a strip of Adhesive Sheet to the back of the Cherry Cobbler cardstock before running it through your embossing machine. Adhere the detailed sentiment to the gold background sentiment. Set aside for now.

4. From a 4' x 3" piece of Gold Textured Metallic Specialty Paper, die cut the small and medium sized detailed pine trees using the Peaceful Evergreens Dies. Using small drops of liquid glue, adhere the larger tree to the card front. Position the tree towards the lower left of the card front. Then adhere the smaller tree to the card front, slightly overlapping the larger tree. Use Stampin' Dimensionals to adhere the "Christmas" die cut sentiment to the lower portion of the card front. **Important Note: Save the negative from the die cut trees. You will use the negative to add some details to the inside panel and the envelope front using Gold Metallic Embossing Effects.**

5. Use the Gold Textured Metallic Specialty Paper negative (from Step #4 above) to sponge Gold Metallic Embossing Effects to create an image of a tree on the inside panel. Squirt some of the Gold metallic Embossing Effects onto a stamping block then use a Sponge Dauber to sponge the larger tree image onto the lower left of the inside panel. Remove the negative mask and allow the Gold Embossing Effects to completely dry. Use the Peaceful Season Stamp Set to stamp the "A season of wonder and happiness" onto the upper right of the panel using Cherry Cobbler ink. Adhere the panel to the remaining Gold Textured Metallic mat, then adhere the panel to the inside of the card.

6. Place a scrap piece of cardstock inside of the envelope. Use the Negative mask of the small tree to sponge Gold Metallic Enamel Effects onto the lower left of the envelope. Allow the envelope to completely dry before moving on.
7. Adhere the coordinating piece of designer series paper to the envelope flap and use a small pair of scissors or paper snips to trim the excess paper away from the flap.
8. Tie a small double bow using Gold Twisted Thread. Adhere the bow towards the upper left of the die cut "Christmas" sentiment on the card front using a Mini Glue Dot.
9. Adhere three Gold Textured Adhesive-Backed Dots to the card front to complete the project.
