I created this pretty Christmas Card using the **Merriest Trees Bundle**, scraps of paper from the **Traditions of St. Nicholas 12" x 12" Designer Series Paper** and sentiments from the Brightest Glow Stamp Set. Let's get started!

## Supplies:

- Inside Panel - Cut 1 Basic White cardstock to 5-1/4" x 4"
  - Envelope Flap - Cut 1 piece of coordinating designer series paper to 6" x 2-1/4"
2. Use the largest tree die from the Merriest Trees Dies to cut out the Christmas Tree negative from the white panel measuring 5-3/8" x 4-1/8" (Front Panel #1). Center the die from right to left. The top of the tree die should be approximately a 1/4" from the top of the panel. You can save the die cut tree for a future project. You will be using the negative cut out on the panel for this project.
  3. From the Brightest Glow Stamp Set, stamp the sentiment "to you and yours this Christmas" in Real Red ink just below the cut out of the tree on Front Panel #1. Emboss this panel using the Snowflake Sky 3D Embossing Folder.

4. Lay the 2nd front panel (Front Panel #2 measuring 5-1/4" x 4") under the negative die cut panel from Step #2 above. Make sure that the panel is centered from top to bottom and left to right. I used two small pieces of Post It Tape to hold the panel in place. Next, use a pencil to very lightly trace the outline of the tree onto Front Panel #2. Remove the Front Panel #1. Using 1/2" scraps of paper from the Traditions of St. Nicholas Designer Series Paper pack to cover the traced area of the tree. Use Stampin' Seal or liquid glue to glue each strip down over the traced tree.
5. Adhere Front Panel #1 to Front Panel #2. Adhere this panel unit to the front of the card base using Stampin' Dimensionals.
6. From the Brightest Glow Stamp Set, stamp the sentiment "May the peach of the season light

your world & may your new year be the brightest!" in Real Red ink onto the inside panel. Use the large, detailed tree image from the Merriest Trees Stamp Set to partially stamp a tree in the lower left corner of the inside panel in Mossy Meadow ink. Without reinking the stamp, partially stamp the image again next to the first tree. Use the small bow from the Merriest Trees Stamp Set and stamp the bow at the top of the larger tree in Real Red ink. Adhere the inside panel to a Mossy Meadow mat, then adhere to the inside of the card.

7. On the envelope front, partially stamp the same detailed tree image in Mossy Meadow ink. Without reinking the stamp, stamp the image again next to the first tree. Stamp the bow image above the larger tree in Real Red ink.
8. Adhere a piece of coordinating designer series paper to the envelope flap and trim the excess paper away from the flap.
9. Tie a small bow from gold trim from the Gold & Silver Trim Combo Pack. Adhere the bow to the top of the tree on the card front using a Mini Glue Dot.
10. Adhere multiple red, gold and silver Festive Pearls to the tree on the card front.

This completes the card! This is a fun way to use the Merriest Trees Bundle to create a beautiful Christmas card. It's also a great way to use up small designer series paper scraps!

Products used to create this card are included on the next page.
